Abstracts

According to our (Global Info Research) latest study, the global Tourism Source market size was valued at US\$ million in 2024 and is forecast to a readjusted size of USD million by 2031 with a CAGR of %during review period.

Tourism is a leisure-based economic activity that connects many nations and locations across the world. In tourism, there are two sectors. The first is the tourism source market, which is where travelers go to visit the destination of the second market, which is termed the tourism host market, and which therefore produces the tourist flow. People from the source areas are visiting other places for leisure, enjoyment, and fun-related activities, thus the tourism source market has a lot of potential. This market is projected to expand in the near future.

In 2022, the gradual relaxation of epidemic prevention and control measures around the world will have a positive impact on the rapid recovery of the tourism industry.

According to data from the World Tourism Organization, the number of global travelers exceeded 900 million in 2022, a two-fold increase compared to 2021. In 2022, international tourism revenue returned to the US\$ 1 trillion, a real increase of 50% compared with 2021. According to data from the Ministry of Culture and Tourism of China, in 2022, the total number of domestic tourists was ? 2.53 billion, and the domestic tourism revenue (total tourism consumption) was ? 2 trillion.
