Abstracts

According to our (Global Info Research) latest study, the global Towel Disinfection Service market size was valued at US\$ 653 million in 2025 and is forecast to a readjusted size of US\$ 959 million by 2032 with a CAGR of 5.7% during review period.

Towel Disinfection Service refers to professional cleaning and sanitization services for towels, using processes such as high-temperature washing, chemical disinfectants, or UV treatment to remove dirt, bacteria, and odors. It is widely used in industries with high hygiene requirements, such as hotels, gyms, salons, and healthcare facilities.

The towel disinfection service industry is undergoing multi-dimensional transformation, with higher hygiene standards emerging post-pandemic, driving industry standardization. At the same time, companies are adopting automated sorting, intelligent washing, and disinfection systems to improve efficiency and consistency. Environmental and energy-saving technologies are increasingly implemented to reduce water and energy consumption while minimizing environmental impact. Structurally, the industry is moving toward centralized and large-scale operations, with integrated “rental + cleaning and disinfection” service models gaining traction. With digitalization, technologies such as RFID enable full-process traceability, while demand from high-end hotels, salons, and fitness centers is driving the growth of customized, premium services.

This report is a detailed and comprehensive analysis for global Towel Disinfection Service market. Both quantitative and qualitative analyses are presented by company, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors

that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2025, are provided.

Key Features:

Global Towel Disinfection Service market size and forecasts, in consumption value (\$ Million), 2021-2032

Global Towel Disinfection Service market size and forecasts by region and country, in consumption value (\$ Million), 2021-2032

Global Towel Disinfection Service market size and forecasts, by Type and by Application, in consumption value (\$ Million), 2021-2032

Global Towel Disinfection Service market shares of main players, in revenue (\$ Million), 2021-2026

The Primary Objectives in This Report Are:

To determine the size of the total market opportunity of global and key countries

To assess the growth potential for Towel Disinfection Service

To forecast future growth in each product and end-use market

To assess competitive factors affecting the marketplace

This report profiles key players in the global Towel Disinfection Service market based on the following parameters - company overview, revenue, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Cintas, Aramark, Ecolab, UniFirst, Alisco, Elis, Berendsen, Clean Linen Services, Mission Linen Supply, Angelica Corporation, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

Market segmentation

Towel Disinfection Service market is split by Type and by Application. For the period 2021-2032, the growth among segments provides accurate calculations and forecasts for Consumption Value by Type and by Application. This analysis can help you expand your business by targeting qualified niche markets.
