According to our (Global Info Research) latest study, the global Tricyclodecenyl Butyrate market size was valued at US\$ 17.57 million in 2025 and is forecast to a readjusted size of US\$ 22.26 million by 2032 with a CAGR of 3.4% during review period.

In 2025, the global sales volume of Tricyclodecenyl Butyrate is estimated to be approximately 356 tons? with a mainstream ex-factory price of around USD 48/kg. The gross margin of major manufacturers in the industry is estimated at approximately 30%?45%.

Tricyclodecenyl Butyrate is an alicyclic ester synthetic fragrance ingredient, with the CAS number 113889-23-9, belonging to the tricyclodecenyl butyrate fragrance category. Its molecular structure consists of a tricyclodecenyl skeleton esterified with an n-butyric acid group, making it a straight-chain acid-type tricyclodecenyl ester. The product is typically a colorless to pale yellow transparent liquid, featuring sweet fruity, peach-like, soft green and slightly woody odor notes. It is mainly used as a modifying and supporting ingredient in fragrance formulations, helping to enhance the roundness, diffusion and lasting performance of fruity accords. It is a distinctive small-volume synthetic fragrance material in personal care and household fragrance systems.

The upstream supply chain of Tricyclodecenyl Butyrate mainly includes tricyclodecenyl alcohol intermediates, n-butyric acid or butyrate esterification reagents, catalysts, solvents, and distillation and purification processes. The quality of tricyclodecenyl intermediates, control of the esterification reaction and stability of the isomer composition are key factors affecting odor consistency, purity and production cost.

Downstream demand mainly comes from fragrance and flavor compounding companies as well as household and personal care end-use systems. Its applications are concentrated in fine fragrance, personal care, fabric care and household cleaning products, and it is ultimately used in perfumes, shampoos, shower gels, laundry detergents, fabric softeners, cleaning agents, soaps and air care products.
