According to our (Global Info Research) latest study, the global Tripolar Concentric Ring Electrode (TCRE) market size was valued at USD million in 2023 and is forecast to a readjusted size of USD million by 2030 with a CAGR of % during review period.

TCRE is the abbreviation for tripolar concentric ring electrode. The invention of the TCRE represents a significant and radical improvement in the electrode design. Each TCRE consists of three electrode elements: the outer ring, the middle ring, and the center disc. The TCRE is distinctively different from the disc electrode which has a single element. The outer ring of the TCRE provides disc electrode biopotentials emulation.
