## Abstracts

Truffle oil is a modern culinary ingredient used to impart the flavor and aroma of truffles to a dish.

Truffle oil is top-quality olive oil that has been infused with either white or black truffles. Both types of truffles have an earthy, mushroom flavor. Truffle oil was originally created when truffles are soaked in olive oil. Before commercial truffle oil was introduced in the 1980s, chefs in Italy and France traditionally made their own by steeping tiny bits of fresh truffles in high-quality olive oil. Our data do not cover chemically synthesized truffle oil.
