The global ultra-low temperature freezer market is intensely competitive with the presence of large and small players. The competitive environment in the market is predicted to grow further with the rise in product/service extensions, strategic collaborations, technological innovations, and M&As. Regional vendors in the market are finding it hard to compete based on quality, technology, and pricing as the international players are increasing their market share with solid infrastructure and R&D support.

Key vendors in the market are: Eppendorf, Panasonic, Thermo Fisher Scientific and so on. Top 3 vendors account about 59.65% market share in Global Market.

Geographically, North America dominated the global laboratory freezers market in 2015. The large share of this regional segment can be attributed to the presence of developed healthcare systems in the U.S. & Canada and growing R&D spending on pharmaceuticals & biotechnology in this region.
