According to our (Global Info Research) latest study, the global UN Ton Bag market size was valued at US\$ 495 million in 2025 and is forecast to a readjusted size of US\$ 793 million by 2032 with a CAGR of 7.1% during review period.

In 2025, global production of UN ton bags reached 45 million units, with an estimated average selling price of US\$10.7 per bag. UN ton bags are container bags approved by the United Nations Packaging System for Dangerous Goods, suitable for the transport and storage of specific dangerous goods or hazardous solid materials. They are typically composed of high-strength PP woven fabric, straps, stitching, coating, lining, and necessary anti-static/conductive structures. They must pass performance tests including drop, stacking, top lifting, tipping, righting, tearing, and vibration, and must be labeled with the UN packaging symbol, packaging class, maximum gross weight, year of manufacture, country, and certification body information as required. Applications are concentrated in hazardous chemicals, pesticide technicals and formulations, combustible dust, metal powders, catalysts, pigments, resins, fine chemical powders, pharmaceutical intermediates, lithium battery materials, contaminated solid waste, and other dry bulk materials requiring transport under dangerous goods regulations. The upstream of the industry chain includes PP resin, PP flat yarn, high-strength suspenders, sewing thread, UV stabilizers, masterbatches, coating materials, PE/aluminum foil/EVOH liners, antistatic agents, conductive yarn/static dissipative yarn, labels, inks, and testing services; the midstream includes drawing, weaving, laminating, cutting, sewing, lining lamination, electrostatic safety design, UN type testing, batch traceability, labeling, and quality document management; the downstream includes chemicals, agrochemicals, pharmaceuticals, mining, lithium battery materials, hazardous waste treatment, hazardous materials warehousing, and international logistics. Gross profit margin is approximately 20%-40%.
