The global Underfloor Heating market size is expected to reach \$ 6253.4 million by 2029, rising at a market growth of 3.3% CAGR during the forecast period (2023-2029).

The global key manufacturers of underfloor heating are Danfoss A/S, Uponor, Nexans, Robert Bosch, Honeywell, Schneider Electric, Purmo Group, Rehau, Mitsubishi Electric and others. The largest manufacturer is Danfoss A/S, with a market share of 5%. The global origins are mainly located in North America, Europe, China, Japan, Korea, etc. Europe has the largest market with a market share of 40%. In terms of product category, electric heating holds more market share with 55%, while hydronic heating has a lower share. In terms of its applications, residential building holds 75% of the market share and commercial accounts for 15%.

Underfloor heating (UFH) is a heating system that uses embedded pipes or Electric Underfloor Heating cables beneath a finished floor so that heat radiates steadily from floor level.

It is a form of central heating using conduction, radiation and convection. Underfloor heating (UFH)'s advantages main include two aspects: it provides better quality heating without draughts or dry air, but also that, because of its low operating temperature; it can be easily linked in with alternative heating sources that output at the same low temperatures.

In general, underfloor heating (UFH) includes two types such as hydronic UFH systems and electric UFH systems. In this report, hydronic UFH is highlighted due to the extensive application.

This report studies the global Underfloor Heating production, demand, key manufacturers, and key regions.
