Abstracts

The global Urban Turf Insecticides market size is expected to reach \$ 3213 million by 2032, rising at a market growth of 7.7% CAGR during the forecast period (2026-2032).

Urban turf insecticides are formulated crop protection products designed to control insects affecting turfgrass in urban environments, including residential lawns, public parks, golf courses, sports fields, and municipal green spaces. In 2025, the average global unit price of urban turf insecticides is approximately US\$9,800 per ton, with global annual sales volume and production both estimated at around 0.19 million tons. The industry typically maintains a gross margin range of 35%–55%, driven by active ingredient innovation, formulation performance, regulatory compliance costs, and branding and distribution strength in professional turf management channels. The supply chain includes upstream active ingredients, solvents, carriers, surfactants, and formulation additives; midstream manufacturers focus on formulation development, blending, quality control, registration, and packaging; downstream users include landscaping service companies, golf course operators, municipal maintenance departments, sports facility managers, and professional turf care providers.

This report studies the global Urban Turf Insecticides production, demand, key manufacturers, and key regions.

This report is a detailed and comprehensive analysis of the world market for Urban Turf Insecticides and provides market size (US\$ million) and Year-over-Year (YoY) Growth, considering 2025 as the base year. This report explores demand trends and competition, as well as details the characteristics of Urban Turf Insecticides that contribute to its increasing demand across many markets.

Highlights and key features of the study

Global Urban Turf Insecticides total production and demand, 2021-2032, (Kilotons)

Global Urban Turf Insecticides total production value, 2021-2032, (USD Million)

Global Urban Turf Insecticides production by region & country, production, value, CAGR, 2021-2032, (USD Million) & (Kilotons), (based on production site)

Global Urban Turf Insecticides consumption by region & country, CAGR, 2021-2032 & (Kilotons)

U.S. VS China: Urban Turf Insecticides domestic production, consumption, key domestic manufacturers and share

Global Urban Turf Insecticides production by manufacturer, production, price, value and market share 2021-2026, (USD Million) & (Kilotons)

Global Urban Turf Insecticides production by Type, production, value, CAGR, 2021-2032, (USD Million) & (Kilotons)

Global Urban Turf Insecticides production by Application, production, value, CAGR, 2021-2032, (USD Million) & (Kilotons)

This report profiles key players in the global Urban Turf Insecticides market based on the following parameters - company overview, production, value, price, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Syngenta, Bayer Crop Science, Corteva Agriscience, BASF, FMC Corporation, UPL, Nufarm, Sumitomo Chemical, Valent, ADAMA, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

Stakeholders would have ease in decision-making through various strategy matrices used in analyzing the World Urban Turf Insecticides market

Detailed Segmentation:

Each section contains quantitative market data including market by value (US\$ Millions), volume (production, consumption) & (Kilotons) and average price (US\$/Ton) by manufacturer, by Type, and by Application. Data is given for the years 2021-2032 by year with 2025 as the base year, 2026 as the estimate year, and 2027-2032 as the forecast year.

Global Urban Turf Insecticides Market, By Region:

United States

China

Europe

Japan

South Korea

ASEAN

India

Rest of World

Global Urban Turf Insecticides Market, Segmentation by Type:

Short Residual

Medium Residual

Long Residual

Global Urban Turf Insecticides Market, Segmentation by Application Frequency:

Single Application

Seasonal Application

Multiple Applications

Global Urban Turf Insecticides Market, Segmentation by Target Insect Stage:

Larvae Control

Adult Control

All-Life-Stage Control

Global Urban Turf Insecticides Market, Segmentation by Application:

Landscaping Service Company

Golf Course Operator

Municipal Authority

Sports Facility Manager

Others

Companies Profiled:

Syngenta

Bayer Crop Science

Corteva Agriscience

BASF

FMC Corporation

UPL

Nufarm

Sumitomo Chemical

Valent

ADAMA

Key Questions Answered:

1. How big is the global Urban Turf Insecticides market?
2. What is the demand of the global Urban Turf Insecticides market?
3. What is the year over year growth of the global Urban Turf Insecticides market?
4. What is the production and production value of the global Urban Turf Insecticides market?
5. Who are the key producers in the global Urban Turf Insecticides market?
6. What are the growth factors driving the market demand?

I would like to order

Product name: Global Urban Turf Insecticides Supply, Demand and Key Producers, 2026-2032

Product link: <https://marketpublishers.com/r/GB014802204AEN.html>

Price: US\$ 4,480.00 (Single User License / Electronic Delivery)
