## Abstracts

According to our (Global Info Research) latest study, the global Ursodeoxycholic Acid Drug market size was valued at US\$ 1359 million in 2025 and is forecast to a readjusted size of US\$ 1714 million by 2032 with a CAGR of 3.4% during review period.

Ursodeoxycholic Acid is an important clinical drug in the treatment of gallstones, cholecystitis, PBC, and PSC and has broad market prospects. In previous work, ursodeoxycholic acid was prepared by traditional organic synthesis.

In this report, we study the drugs of UDCA.

The Ursodeoxycholic Acid (UDCA) drug market is primarily driven by the increasing prevalence of liver and gallbladder diseases, such as primary biliary cholangitis (PBC), cholestatic liver disorders, and gallstones. The rising awareness about early diagnosis and treatment of liver-related conditions has spurred demand for effective therapeutics like UDCA. Additionally, the aging population and increasing incidences of lifestyle-related disorders, such as obesity and metabolic syndrome, which contribute to liver diseases, further fuel market growth. Advances in pharmaceutical formulations and expanded indications for UDCA use in pediatric and off-label treatments also bolster its adoption.

Despite its benefits, the UDCA drug market faces significant challenges, including the availability of alternative treatments like obeticholic acid and surgical options for gallstone management. Moreover, the high cost of branded UDCA medications limits accessibility in low- and middle-income countries. Patent expirations and the subsequent influx of generic drugs have intensified market competition, putting pressure

on pricing and margins. Regulatory hurdles and the need for extensive clinical trials to validate new indications for UDCA also add to the complexity of market expansion.

North America is the largest sales place, with a sales market share nearly 30% in 2023. Following North America, Europe is the second largest sales place with market share of 22%. Ursodeoxycholic Acid Drug Product market in Asia Pacific region is expected to exhibit the highest growth rate especially in the developing Asian countries like China & India. Dr. Falk Pharma, Daewoong Pharmaceutical, Teva, etc. are the global leading manufactures in the world. In the future, more generic manufacturers will enter into this industry. In North America, Epic Pharma is leading manufacturers, Teva, Lannett and Mylan are major suppliers of Ursodeoxycholic Acid Drug Product in USA market. In China, Dr. Falk Pharma is leading manufacturers
