Abstracts

According to our (Global Info Research) latest study, the global Value Added Logistics Service market size was valued at US$ million in 2025 and is forecast to a readjusted size of US$ million by 2032 with a CAGR of %during review period.

Value added logistics service refers to a logistics management model that enhances customer value by providing additional services on the basis of traditional logistics services. These value-added services can include goods packaging, labeling, quality inspection, customized distribution, information feedback, etc., with the purpose of improving logistics efficiency, reducing costs, and enhancing customer experience. As market competition intensifies, companies are paying more and more attention to value-added logistics services in supply chain management to meet the growing needs of customers. In the modern business environment, value-added logistics services are not just a simple combination of transportation and warehousing, but also cover a variety of customized solutions, allowing companies to flexibly respond to market changes and improve service levels. In the context of globalization, the significance of value-added logistics services has become increasingly prominent. As international trade grows, companies need to cope with more complex logistics networks and diverse customer needs. Value-added logistics services can not only help companies reduce operational risks, but also enhance brand image and market competitiveness. Therefore, more and more companies are beginning to invest in value-added logistics services to achieve more efficient supply chain management and better customer service. This transformation not only improves the service level of the logistics industry, but also promotes the optimization and development of the overall business environment.

Service market. Both quantitative and qualitative analyses are presented by company, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2025, are provided.

Key Features:

Global Value Added Logistics Service market size and forecasts, in consumption value ($ Million), 2021-2032

Global Value Added Logistics Service market size and forecasts by region and country, in consumption value ($ Million), 2021-2032

Global Value Added Logistics Service market size and forecasts, by Type and by Application, in consumption value ($ Million), 2021-2032

Global Value Added Logistics Service market shares of main players, in revenue ($ Million), 2021-2026

The Primary Objectives in This Report Are:

To determine the size of the total market opportunity of global and key countries

To assess the growth potential for Value Added Logistics Service

To forecast future growth in each product and end-use market

To assess competitive factors affecting the marketplace

This report profiles key players in the global Value Added Logistics Service market based on the following parameters - company overview, revenue, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Gallega Global Logistics, proLogistik, Tailormade-Logistics, Blue Bell Shipping, Moov Logistics, LGI Logistics Group International, Bilogistik, Crown LSP Group, Brimich Logistics, VANTEC CORPORATION, etc.
