Abstracts

According to our (Global Info Research) latest study, the global Vehicle-mounted Coring Rig market size was valued at US\$ 176 million in 2025 and is forecast to a readjusted size of US\$ 266 million by 2032 with a CAGR of 6.1% during review period.

In 2025, global sales of Vehicle-mounted Coring Rigs reached 1,240 units, with an average selling price of US\$138,000 per unit. A truck-mounted coring rig is a mobile drilling device mounted on a vehicle chassis or all-terrain chassis, primarily used for geological exploration, mineral resource sampling, and tunnel and foundation engineering surveys. Its core function is to achieve high-precision core drilling, core preservation, and preliminary on-site analysis on a mobile platform. The product typically consists of a drill pipe system, hydraulic drive, power system, coring device, and control system, featuring high mobility, high drilling efficiency, and adaptability to complex terrain and environmental conditions. Global total production capacity in 2025 was approximately 1,480 units, with industry gross margins remaining between 18% and 28%.

Upstream suppliers mainly include high-strength steel, hydraulic pumps and components, electrical control systems, powertrains, and wear-resistant drill bit materials. Downstream suppliers primarily supply mineral exploration companies, geological exploration institutions, infrastructure construction units, and engineering consulting firms, with mineral exploration consuming the largest share, followed by infrastructure construction. With the increasing global demand for mineral resource exploration, accelerated infrastructure construction, and the advancement of intelligent management in mining areas, the market demand for vehicle-mounted coring drilling rigs continues to grow. High-efficiency, lightweight, and intelligent drilling rigs will

become the future development direction, and companies that provide mobile drilling and unmanned operation solutions for mining areas will have significant business opportunities.
