Abstracts

Video management system (VMS) currently divided into two categories, one is VMS platform hardware manufacturer launched, and the other is VMS software of the software vendor developed. Video management software is typically used to record and manage video surveillance installations. Video management software runs on a computer and allows users to view multiple cameras, record and retrieve video and monitor alarms.

SCOPE OF THE REPORT:

For the demand of video management software product, there is still a certain space, but basically showing the scarcity of high-end products and excessed capacity of low-end products. There is a large market demand for high-end products to seize market share of imports acts.
Currently the global top 5 external sale manufacturers are: Milestone Systems, Genetec, Qognify, Verint and Hikvision, they accounted for more than 31.10% of the market share in 2015, in terms of revenue. In the near future, the competition pattern might not change.
The global security market continues to grow, especially for emerging economies such as China, Asia, the Middle East and Central and South America, which are experiencing rapid growth. Until now, USA is the largest market region in the world, which occupied about 36.89% in 2015, in terms of global revenue.

The worldwide market for Video Management Software is expected to grow at a CAGR of roughly 20.4% over the next five years, will reach 5760 million US$ in 2024, from 1890 million US$ in 2019, according to a new GIR (Global Info Research) study.
