Abstracts

According to our (Global Info Research) latest study, the global Video & Voice Intercom Systems market size was valued at US$ 2582 million in 2024 and is forecast to a readjusted size of USD 3707 million by 2031 with a CAGR of 5.2% during review period.

Video and Voice Intercom System is also named as the door-phone or door entry devices and equipment, is a stand-alone intercom system used to manage calls made at the entrance to a building with access controlled by audiovisual communication between the inside and outside. The main feature of door entry is that it enables the person indoors to identify the visitor and, if (and only if) they wish, engage in conversation and/or open the door to allow access to the person calling.

The Video & Voice Intercom Systems market has experienced significant growth over the past few years, driven by increasing security concerns, technological advancements, and the rising demand for smart home solutions. A Video & Voice Intercom System or doorbell phone is a vital communication device that allows two-way communication between residents and visitors, enhancing the security and convenience of homes, offices, and buildings. The market is mainly segmented into two product types: audio intercoms and video intercoms

The Video & Voice Intercom System market primarily consists of two types of devices: audio intercoms and video intercoms. Audio intercoms are the traditional models, offering voice communication between the visitor at the door and the resident inside. These systems are relatively simpler and more affordable, making them popular in regions or settings where visual communication is not a critical requirement.

On the other hand, video intercoms have gained significant market share, becoming the leading product in the Video & Voice Intercom System market. These devices provide not only audio communication but also video feeds, allowing users to visually identify visitors before granting access. Video intercoms offer enhanced security, particularly in residential settings, where the ability to verify visitors visually is crucial. The widespread adoption of smart home technology has also contributed to the growth of video intercoms, as they can be integrated with other smart home devices, such as cameras, motion detectors, and mobile apps, providing a more comprehensive security solution.

The Asia-Pacific region is the largest consumer market for Video & Voice Intercom Systems, accounting for over 50% of the global market share. This dominance can be attributed to the rapid urbanization, growing middle class, and increasing demand for smart home products in countries such as China, India, Japan, and South Korea. In these countries, the adoption of Video & Voice Intercom Systems has risen significantly, driven by the need for enhanced security solutions in residential and commercial buildings.

The rise of smart cities and the increasing integration of advanced technologies in homes and buildings have further boosted the demand for video intercoms in the region. Additionally, the Asia-Pacific region is witnessing significant infrastructure development, particularly in residential and commercial real estate, which further contributes to the growth of the Video & Voice Intercom System market.

This report is a detailed and comprehensive analysis for global Video & Voice Intercom Systems market. Both quantitative and qualitative analyses are presented by company, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2025, are provided.

Key Features:

Global Video & Voice Intercom Systems market size and forecasts, in consumption value ($ Million), 2020-2031

Global Video & Voice Intercom Systems market size and forecasts by region and country, in consumption value ($ Million), 2020-2031

Global Video & Voice Intercom Systems market size and forecasts, by Type and by Application, in consumption value ($ Million), 2020-2031

Global Video & Voice Intercom Systems market shares of main players, in revenue ($ Million), 2020-2025

The Primary Objectives in This Report Are:

To determine the size of the total market opportunity of global and key countries

To assess the growth potential for Video & Voice Intercom Systems

To forecast future growth in each product and end-use market

To assess competitive factors affecting the marketplace

This report profiles key players in the global Video & Voice Intercom Systems market based on the following parameters - company overview, revenue, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Aiphone, Panasonic, Legrand, DNAKE, ABB, Samsung, Aurine Technology, Hager, Commax, Honeywell, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

Market segmentation

Video & Voice Intercom Systems market is split by Type and by Application. For the period 2020-2031, the growth among segments provides accurate calculations and forecasts for Consumption Value by Type and by Application. This analysis can help you expand your business by targeting qualified niche markets.

1 MARKET OVERVIEW

1.1 Product Overview and Scope
1.2 Market Estimation Caveats and Base Year
1.3 Classification of Video & Voice Intercom Systems by Type
  1.3.1 Overview: Global Video & Voice Intercom Systems Market Size by Type: 2020 Versus 2024 Versus 2031
  1.3.2 Global Video & Voice Intercom Systems Consumption Value Market Share by Type in 2024
  1.3.3 Audio Intercom Systems
  1.3.4 Video Intercom Systems
1.4 Global Video & Voice Intercom Systems Market by Application
  1.4.1 Overview: Global Video & Voice Intercom Systems Market Size by Application: 2020 Versus 2024 Versus 2031
  1.4.2 Residential
  1.4.3 Commercial
1.5 Global Video & Voice Intercom Systems Market Size & Forecast
1.6 Global Video & Voice Intercom Systems Market Size and Forecast by Region
  1.6.1 Global Video & Voice Intercom Systems Market Size by Region: 2020 VS 2024 VS 2031
