Abstracts

Virtual fitness is an ongoing trend of delivering physical training sessions in groups through online channels. These training sessions are beneficial for people who face difficulty in physically attending classes. These sessions are conducted at a pre-decided schedule or time slot.

SCOPE OF THE REPORT:

The global virtual fitness market is driven by the need for advanced fitness sessions, inclination towards physical fitness, increased stress environment, unavailability of time to attend sessions at institutes, sedentary lifestyle, and others. However, low awareness about the services and courses offered by the players in the industry hamper the market growth. Furthermore, growing popularity of the concept of virtual fitness in developing economies presents lucrative opportunities to market players in the near future.

The global Virtual/Online Fitness market is valued at xx million USD in 2017 and is expected to reach xx million USD by the end of 2023, growing at a CAGR of xx% between 2017 and 2023.

The Asia-Pacific will occupy for more market share in following years, especially in China, also fast growing India and Southeast Asia regions.

North America, especially The United States, will still play an important role which cannot be ignored. Any changes from United States might affect the development trend of Virtual/Online Fitness.
