## Abstracts

The global Voluntary Carbon Credit market size is expected to reach \$ 5322.5 million by 2029, rising at a market growth of 20.0% CAGR during the forecast period (2023-2029).

The key players in the global Voluntary Carbon Credit Trading market are like South Pole Group and 3Degrees, etc. The top three players hold a share over 50% around the world. Europe is the largest market, has a share about 50%, followed by North America, with share approximately 30 %. Based on the product type, forestry is the largest part that account for over 60%. In terms of application, enterprise also has a share over 60 %.

Carbon offsets are measured in metric tons of carbon dioxide-equivalent (CO<sub>2</sub>e) and may represent six primary categories of greenhouse gases: carbon dioxide (CO<sub>2</sub>), methane (CH<sub>4</sub>), nitrous oxide (N<sub>2</sub>O), perfluorocarbons (PFCs), hydrofluorocarbons (HFCs), and sulfur hexafluoride (SF<sub>6</sub>). One carbon offset represents the reduction of one metric ton of carbon dioxide or its equivalent in other greenhouse gases. There are two markets for carbon offsets. In the larger, compliance market, companies, governments, or other entities buy carbon offsets in order to comply with caps on the total amount of carbon dioxide they are allowed to emit. This market exists in order to achieve compliance with obligations of the Kyoto Protocol, and of liable entities under the EU Emission Trading Scheme. In the much smaller, voluntary market, individuals, companies, or governments purchase carbon offsets to mitigate their own greenhouse gas emissions from transportation, electricity use, and other sources. For example, an individual might purchase carbon offsets to compensate for the greenhouse gas emissions caused by personal air travel. Many companies offer carbon offsets as an up-sell during the sales process so that customers can mitigate the emissions related with their product or service purchase (such as offsetting emissions related to a vacation

flight, car rental, hotel stay, consumer good, etc.).
