Abstracts

Walking sandals are designed to give you the breathability and beauty of casual beach sandals with the grip and comfort of hiking shoes. This makes them very versatile, just like they're exploring rock pools on the beach or at home on boulder jumping expeditions. Since walking sandals are often used for amphibious outings, they need to be made of a quick-drying material that also grips well when wet and doesn't wear out after a few adventures.

This report studies the global Walking Sandals production, demand, key manufacturers, and key regions.

This report is a detailed and comprehensive analysis of the world market for Walking Sandals, and provides market size (US\$ million) and Year-over-Year (YoY) Growth, considering 2021 as the base year.
