## Abstracts

Wallets are for both men and women, and are designed to carry personal belongings such as cash, cards (business cards, credit and debit cards, identification cards, and gift cards etc.), other identification documents, and photographs. These are also among the most fashionable and popular products among people. Wallets are not only comfortable and convenient to carry but have come to be seen as a status symbol in urban society. Consequently, the demand for luxury and premium wallets has gained momentum. Various handbag (wallet) companies are adopting innovative strategies, according to the changing consumer demography and preferences, such as rising demand for eco-friendly handbags, to tap the market. Also, launch of designer wallets exclusively for men is gaining traction in the market.

## SCOPE OF THE REPORT:

This report focuses on the Wall Oven in global market, especially in North America, Europe and Asia-Pacific, South America, Middle East and Africa. This report categorizes the market based on manufacturers, regions, type and application. Wall ovens are built in the kitchen wall or installed in cabinets under and above the oven. These ovens are generally installed at a convenient position (usually at the chest level) for the user to keep an eye on the food while it is being cooked. The growing preference among consumers for modular kitchens that are compact and sophisticated is driving the market for built-in appliances like wall ovens. The growing demand for household appliances is paving the way for considerable business opportunities for vendors, owing to which they are improving their product offerings and expanding their distribution channels.

The worldwide market for Wall Oven is expected to grow at a CAGR of roughly xx%

over the next five years, will reach xx million US\$ in 2023, from xx million US\$ in 2017, according to a new GIR (Global Info Research) study.
