Abstracts

According to our (Global Info Research) latest study, the global Wall Panel Adhesive market size was valued at US\$ 2247 million in 2025 and is forecast to a readjusted size of US\$ 3205 million by 2032 with a CAGR of 5.2% during review period.

In 2025, global sales of Wall Panel Adhesive reached approximately 1.05 million tons, with an average market price of about USD 2080 ton, an annual production capacity of roughly 1.45 million tons, and an industry-average gross margin of approximately 35%.

Wall Panel Adhesives are construction adhesive products used to fix wall panels, decorative wall panels, cladding panels, drywall, gypsum boards, PVC/WPC/SPC panels, FRP panels, HPL panels, fiber cement boards, metal composite panels and selected facade panels onto walls, frames, backing boards or supporting structures during building construction, renovation, interior fit-out and prefabricated interior installation. This research focuses on finished adhesive products used at the installation and assembly stage, including cartridge-applied grab adhesives, liquid nails, pail-applied panel adhesives, trowel-grade adhesives, gun-grade polyurethane foam adhesives, two-component panel bonding adhesives, hybrid sealant-adhesives and facade panel bonding systems with primers and auxiliary bonding components. Major technology routes include polyurethane, modified silane polymer, MS/SMP/STP hybrid polymer, silicone, acrylic dispersion, neoprene rubber, epoxy and water-based high-grab systems. Key performance indicators include initial grab, final bond strength, sag resistance, flexibility, moisture and heat resistance, weatherability, aging resistance, low VOC, low odor, open time, curing speed and compatibility with different substrates and panel materials. The main value of these adhesives lies in reducing mechanical fasteners, improving surface aesthetics, distributing stress across the bonded area,

lowering the risk of hollowing or loosening, and improving installation efficiency and long-term wall system reliability.
