Water-based asphalt waterproof coating is an environmentally friendly paint with water as the dispersion medium and asphalt as the primary film-forming substance. It exhibits excellent waterproof and durable properties, forming a continuous waterproof layer to effectively prevent water penetration. The formed film possesses good elasticity and flexibility, accommodating minor substrate deformations while maintaining the integrity of the waterproof layer. It also demonstrates good weather resistance and chemical resistance, enduring long-term exposure to external environments. Suitable for waterproofing works in various building structures such as roofs, basements, and bathrooms, it provides a reliable solution for waterproof protection of buildings.
