Abstracts

Based on service, the weight loss and weight management market is segmented into fitness centers, slimming centers, consulting services, and online weight loss programs. The online fitness centers segment is expected to account for the largest share due to increasing awareness about health and fitness among the population, which has resulted in a significant increase in the number of health clubs and gyms across the globe. The online weight programs segment is projected to register the highest growth during the forecast period, due to the popularity of online programs offered through Internet subscriptions.
