Abstracts

According to our (Global Info Research) latest study, the global West Indian Sandalwood Oil market size was valued at US\$ 77.13 million in 2025 and is forecast to a readjusted size of US\$ 107 million by 2032 with a CAGR of 4.9% during review period.

West Indian Sandalwood Oil, also known as Amyris essential oil, is primarily obtained through the steam distillation of West Indian sandalwood timber or bark. Characterized by a warm, woody aroma, it is frequently utilized in fragrances, aromatherapy, and skincare formulations.

The upstream sector of the industry encompasses the sourcing of West Indian sandalwood timber and bark, cultivation and harvesting operations, distillation equipment, packaging containers, and quality testing services. The downstream sector comprises enterprises involved in perfumes, cosmetics, aromatherapy, home fragrances, soaps, and daily chemical products.

Globally, the market for West Indian Sandalwood Oil commands an average unit price of \$263 per kilogram, with global sales volumes reaching approximately 285 tons. The industry's annual production capacity ranges from 300 to 500 tons, maintaining a profit margin of approximately 25%.

The global market is projected to be driven in the future by growing consumer demand for natural fragrances, 'clean label' cosmetics, aromatherapy products, and home fragrances. Due to its lower cost compared to true sandalwood oil?combined with its stable aroma and woody undertones?West Indian Sandalwood Oil will continue to serve

as a viable alternative ingredient in perfumes, essential oil blends, and personal care formulations. As brands increasingly prioritize sustainable sourcing, plant-origin certification, and ingredient transparency, suppliers will place greater emphasis on origin traceability, the optimization of distillation processes, and organic certification. Future product development is expected to trend toward higher purity, greater standardization, customized blending solutions, and the provision of stable, large-scale supplies.
