## Abstracts

According to our (Global Info Research) latest study, the global Wheeled Luggage market size was valued at US\$ 774 million in 2024 and is forecast to a readjusted size of USD 1159 million by 2031 with a CAGR of 6.0% during review period.

Wheeled luggage is a type of suitcase equipped with wheels to enhance convenience and comfort during travel. It is typically designed with either four or two swivel wheels, allowing the luggage to be easily pushed, pulled, or rotated across various surfaces, minimizing the effort required for lifting and carrying. The luggage usually features a sturdy outer shell and waterproof materials to protect the contents from external impacts and weather conditions. It often comes with an extendable telescopic handle, adjustable to different heights for users of varying statures. Wheeled luggage is widely used for domestic and international travel, business trips, and vacations due to its easy mobility and ample storage capacity.

This report is a detailed and comprehensive analysis for global Wheeled Luggage market. Both quantitative and qualitative analyses are presented by manufacturers, by region & country, by Type and by Application.
