A Wipe-On Label Applicator is a type of machine used to apply labels onto products by utilizing a wiping mechanism. It is commonly used in industrial settings to automate the labeling process, increasing productivity and accuracy. The wipe-on applicator uses a conveyor system to move products past a label dispenser, which then applies the label onto the surface of the product as it passes by. The labeling process involves a wiping action to ensure proper adhesion and alignment of the label. Wipe-on label applicators are versatile and can handle various label sizes, shapes, and materials.
