According to our (Global Info Research) latest study, the global Wireless Smart Lighting Control System market size was valued at USD 706.7 million in 2023 and is forecast to a readjusted size of USD 1521.7 million by 2030 with a CAGR of 11.6% during review period.

Smart lighting is a lighting technology designed for energy efficiency. This may include high efficiency fixtures and automated controls that make adjustments based on conditions such as occupancy or daylight availability. Lighting is the deliberate application of light to achieve some aesthetic or practical effect. It includes task lighting, accent lighting, and general lighting.

A lighting control system is an intelligent network based lighting control solution that incorporates communication between various system inputs and outputs related to lighting control with the use of one or more central computing devices. Lighting control systems are widely used on both indoor and outdoor lighting of commercial, industrial, and residential spaces. Lighting control systems serve to provide the right amount of light where and when it is needed. Lighting control systems are employed to maximize the energy savings from the lighting system, satisfy building codes, or comply with green building and energy conservation programs.

The term wireless smart lighting controls is typically used to indicate stand-alone control of the lighting within a space. This may include occupancy sensors, time clocks, and photocells that are hard-wired to control fixed groups of lights independently, and connected to the terminals with wireless standard protocols (Zigbee, Wifi, Bluetooth and etc.).

US is the largest Wireless Smart Lighting Controls market with about 48% market share. Europe is follower, accounting for about 24% market share. The key players are GE Lighting, PHILIPS, TVILIGHT, Osram, Lutron, Telematics, Control4, Echelon, DimOnOff, Venture Lighting, Cimcon, Petra Systems, Honeywell, Murata, Schneider Electric, Legrand, Huagong Lighting, Zengge etc. Top 3 companies occupied about 26% market share.
