Abstracts

Yacht insurance is a specialized type of marine insurance designed to provide coverage for yachts. It typically includes protection against a range of risks such as damage to the yacht itself (both in water and on land), theft, collision, and liability for damage or injury caused by the yacht. The coverage can vary greatly depending on the policy, including factors like the size and value of the yacht, where it is used, and whether it is used for private enjoyment or charter.

According to our (Global Info Research) latest study, the global Yachts Insurance market size was valued at US\$ 2040 million in 2023 and is forecast to a readjusted size of USD 2882 million by 2030 with a CAGR of 5.1% during review period.

The core manufacturers of global Yachts Insurance include Chubb, AIG and Markel. The top three companies have a market share of about 58%. In terms of product type, Standard Yacht Insurance is the largest segment with approximately 80% market share. In terms of application, Private Owners is the largest downstream segment, accounting for about 82% of the market.
