Abstracts

According to our (Global Info Research) latest study, the global Zero Trust Identity Security Service Platform market size was valued at USD million in 2022 and is forecast to a readjusted size of USD million by 2029 with a CAGR of % during review period. The influence of COVID-19 and the Russia-Ukraine War were considered while estimating market sizes.

Zero Trust security is an IT security model that requires strict identity verification for every person and device trying to access resources on a private network, regardless of whether they are sitting within or outside of the network perimeter. ZTNA is the main technology associated with Zero Trust architecture; but Zero Trust is a holistic approach to network security that incorporates several different principles and technologies.

More simply put: traditional IT network security trusts anyone and anything inside the network. A Zero Trust architecture trusts no one and nothing.

Traditional IT network security is based on the castle-and-moat concept. In castle-and-moat security, it is hard to obtain access from outside the network, but everyone inside the network is trusted by default. The problem with this approach is that once an attacker gains access to the network, they have free rein over everything inside.

This report is a detailed and comprehensive analysis for global Zero Trust Identity Security Service Platform market. Both quantitative and qualitative analyses are presented by company, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets.

Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2023, are provided.

Key Features:

Global Zero Trust Identity Security Service Platform market size and forecasts, in consumption value ($ Million), 2018-2029

Global Zero Trust Identity Security Service Platform market size and forecasts by region and country, in consumption value ($ Million), 2018-2029

Global Zero Trust Identity Security Service Platform market size and forecasts, by Type and by Application, in consumption value ($ Million), 2018-2029

Global Zero Trust Identity Security Service Platform market shares of main players, in revenue ($ Million), 2018-2023

The Primary Objectives in This Report Are:

To determine the size of the total market opportunity of global and key countries

To assess the growth potential for Zero Trust Identity Security Service Platform

To forecast future growth in each product and end-use market

To assess competitive factors affecting the marketplace

This report profiles key players in the global Zero Trust Identity Security Service Platform market based on the following parameters - company overview, production, value, price, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include SonicWall, Cisco, Cloudflare, siemens and Absolute Software, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals, COVID-19 and Russia-Ukraine War Influence.

Market segmentation

Zero Trust Identity Security Service Platform market is split by Type and by Application.

The content of the study subjects, includes a total of 13 chapters:

Chapter 1, to describe Zero Trust Identity Security Service Platform product scope, market overview, market estimation caveats and base year.

Chapter 2, to profile the top players of Zero Trust Identity Security Service Platform, with revenue, gross margin and global market share of Zero Trust Identity Security Service Platform from 2018 to 2023.

Chapter 3, the Zero Trust Identity Security Service Platform competitive situation, revenue and global market share of top players are analyzed emphatically by landscape contrast.

Chapter 4 and 5, to segment the market size by Type and application, with consumption value and growth rate by Type, application, from 2018 to 2029.

Chapter 6, 7, 8, 9, and 10, to break the market size data at the country level, with revenue and market share for key countries in the world, from 2018 to 2023.and Zero Trust Identity Security Service Platform market forecast, by regions, type and application, with consumption value, from 2024 to 2029.

Chapter 11, market dynamics, drivers, restraints, trends, Porters Five Forces analysis, and Influence of COVID-19 and Russia-Ukraine War

Chapter 12, the key raw materials and key suppliers, and industry chain of Zero Trust Identity Security Service Platform.

Chapter 13, to describe Zero Trust Identity Security Service Platform research findings and conclusion.
