Nowadays, an increasing number of facilities (SPA, wellness centres, hospitals, etc.) offering salt therapy, whether as a stand-alone salt therapy center or as an add-on to an existing business or concept. Halogenerator is the main device for salt therapy. It grinds salt particles size up to 5 micron to penetrate deep in respiratory and skin organs. Halo generators, or halogenerators, are devices used in halotherapy, also known as salt therapy, a complementary treatment that simulates the microclimate of salt caves. Halotherapy is believed to provide health benefits, particularly for respiratory and skin conditions. The concept originates from the observation that miners working in salt mines had fewer respiratory problems compared to miners working in other environments.
