Electric heaters are heating equipment that uses electricity as energy for heating.

Judging from the online sales distribution of electric heaters by product type, the shares of the three major categories of heaters, baseboards, and electric heating oil heaters have further increased, reducing the market space of other categories. Online sales of heaters accounted for 34.6%; online sales of skirting boards accounted for 27.9%; online sales of electric heating oil heaters accounted for 18.8%; Infrared online sales accounted for 2.0%; other online sales accounted for 1.5%. It can be seen that skirting boards have grown significantly under the new graphene technology.
