## Abstracts

According to our (Global Info Research) latest study, the global Industrial Floor Sweeper Rental market size was valued at US\$ 1250 million in 2025 and is forecast to a readjusted size of US\$ 1476 million by 2032 with a CAGR of 2.4% during review period.

In 2025, global Industrial Floor Sweeper Rental reached approximately 4 million units, with an average global rental price of around US\$ 300 per unit. An industrial floor sweeper rental is a short-term or long-term leasing service that allows businesses to use heavy-duty floor sweeping equipment without purchasing it. These machines are designed to clean large indoor or outdoor areas by collecting dust, debris, dirt, and trash efficiently. The gross profit margin of the Industrial Floor Sweeper Rental business typically ranges between 35% and 60%, depending on several operational and market factors. The Industrial Floor Sweeper Rental market refers to the commercial sector that provides temporary access to heavy-duty floor sweeping equipment for industrial, commercial, and municipal users. This market serves warehouses, manufacturing plants, logistics centers, construction sites, parking facilities, and large public spaces that require efficient cleaning of expansive floor areas. Driven by the need to reduce capital expenditure, increase operational flexibility, and access well-maintained modern equipment, organizations increasingly prefer renting walk-behind and ride-on industrial sweepers instead of purchasing them. Rental services typically include equipment maintenance, technical support, and flexible rental terms ranging from short-term projects to long-term contracts. Growth in industrialization, infrastructure development, and stricter cleanliness and safety standards continues to support steady demand for industrial floor sweeper rental solutions worldwide. The Industrial Floor Sweeper Rental industry value chain encompasses multiple interconnected stages, from equipment manufacturing to end-user service delivery. It begins with equipment manufacturers,

who design and produce a range of floor sweepers, including walk-behind and ride-on models, along with associated consumables such as brushes, filters, and batteries. Next, distributors and rental companies acquire these machines and manage fleet operations, including inventory management, maintenance, refurbishment, and logistics. Rental companies also provide value-added services such as delivery, operator training, technical support, and flexible rental contracts tailored to short-term projects or long-term industrial needs. On the demand side, end-users span warehouses, manufacturing plants, logistics hubs, construction sites, and large public facilities that require efficient cleaning of extensive floor areas. Supporting segments include aftermarket services, such as spare parts, maintenance, and equipment upgrades, as well as technology providers offering fleet management, tracking, and scheduling software to optimize utilization. Overall, the industry value chain integrates manufacturing, distribution, rental operations, and ancillary services to deliver cost-effective, flexible, and reliable floor cleaning solutions to industrial and commercial customers.

This report is a detailed and comprehensive analysis for global Industrial Floor Sweeper Rental market. Both quantitative and qualitative analyses are presented by company, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2025, are provided.

### **Key Features:**

Global Industrial Floor Sweeper Rental market size and forecasts, in consumption value (\$ Million), 2021-2032

Global Industrial Floor Sweeper Rental market size and forecasts by region and country, in consumption value (\$ Million), 2021-2032

Global Industrial Floor Sweeper Rental market size and forecasts, by Type and by Application, in consumption value (\$ Million), 2021-2032

Global Industrial Floor Sweeper Rental market shares of main players, in revenue (\$ Million), 2021-2026

### **The Primary Objectives in This Report Are:**

*Global Industrial Floor Sweeper Rental Market 2026 by Company, Regions, Type and Application, Forecast to 2032*

To determine the size of the total market opportunity of global and key countries  
To assess the growth potential for Industrial Floor Sweeper Rental  
To forecast future growth in each product and end-use market  
To assess competitive factors affecting the marketplace

This report profiles key players in the global Industrial Floor Sweeper Rental market based on the following parameters - company overview, revenue, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Sunbelt Rentals, Herc Rentals, United Rentals, Karcher, Allied Rental, Tennant Company, The Home Depot, Factory Cleaning Equipment, EquipmentShare, Southern Sweepers & Scrubbers, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

## **Market segmentation**

Industrial Floor Sweeper Rental market is split by Type and by Application. For the period 2021-2032, the growth among segments provides accurate calculations and forecasts for Consumption Value by Type and by Application. This analysis can help you expand your business by targeting qualified niche markets.
