Abstracts

According to our (Global Info Research) latest study, the global Localization Translation Service market size was valued at US$ 2985 million in 2024 and is forecast to a readjusted size of USD 3435 million by 2031 with a CAGR of 2.1% during review period.

Faced with an unfamiliar country or region, the language and cultural environment is completely different from the mother tongue; whether it is a domestic company going out or a foreign company coming in, it needs the service of localization translation. Generally speaking, localization translation refers to the transformation of imported language and characters to meet specific customer groups and match the historical and cultural background of a specific region. The purpose is to overcome the cultural barriers of foreign products and attract more local users, so as to open up foreign markets and further globalize.

This report is a detailed and comprehensive analysis for global Localization Translation Service market. Both quantitative and qualitative analyses are presented by company, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2025, are provided.
