## Abstracts

According to our latest research, the global Mobile ID Wallet market size will reach USD 742 million in 2031, growing at a CAGR of 14.2% over the analysis period.

A Mobile ID Wallet is a digital wallet that securely stores and manages a person's identity-related information on their smartphone. It is part of a broader trend toward digitizing government-issued IDs (like driver's licenses or passports) and other credentials (such as healthcare information or payment details) for easier, more secure, and portable access.

Many countries are now issuing digital versions of national IDs, driver's licenses, and passports. For example, countries like the U.S. (with states rolling out digital driver's licenses), Estonia (with its e-Residency program), and Singapore are pioneers in government-backed digital identity. Mobile ID wallets are increasingly being used to access government services such as tax filings, voting, and social security, creating a smoother and more efficient interaction with public services. Growth in Financial Services and Digital Payments is another key driver for the market. As mobile wallets like Apple Pay and Google Pay expand, the integration of digital ID credentials alongside payment cards creates an all-in-one solution for users to manage both identity and transactions securely.

This report is a detailed and comprehensive analysis for global Mobile ID Wallet market. Both quantitative and qualitative analyses are presented by company, by region & country, by Type and by Application. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some

of the selected leaders for the year 2025, are provided.

### **Key Features:**

Global Mobile ID Wallet market size and forecasts, in consumption value (\$ Million), 2020-2031

Global Mobile ID Wallet market size and forecasts by region and country, in consumption value (\$ Million), 2020-2031

Global Mobile ID Wallet market size and forecasts, by Type and by Application, in consumption value (\$ Million), 2020-2031

Global Mobile ID Wallet market shares of main players, in revenue (\$ Million), 2020-2025

### **The Primary Objectives in This Report Are:**

To determine the size of the total market opportunity of global and key countries

To assess the growth potential for Mobile ID Wallet

To forecast future growth in each product and end-use market

To assess competitive factors affecting the marketplace

This report profiles key players in the global Mobile ID Wallet market based on the following parameters - company overview, revenue, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Thales Group, Google, Apple, IDEMIA, Baidu, Dock Wallet, GET Group Holdings, Singpass, Bluink, ID123 Inc., etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

### **Market segmentation**

Mobile ID Wallet market is split by Type and by Application. For the period 2020-2031, the growth among segments provides accurate calculations and forecasts for Consumption Value by Type and by Application. This analysis can help you expand your business by targeting qualified niche markets.
