Abstracts

The vacation rental software enables the house/property managers to manage leads, cash flows, distribution channels and partners or distribution channels. It also offers an efficient point of sale system, efficient documentation system to property managers and increases automation in vendor payables system. Lead management functionality generates the price quote automatically according to the requirements of the customer. Further, it also assists sales managers to create personalized quotes in less time and thus eliminates the hassle of manual price calculation. The vacation rental software contains reporting suite which enables the renting entity to evaluate the financial performance of the rented property. Renting entity refers to the property owner organization, property manager or the property owner.
