Abstracts

Hydroxypropyl methylcellulose is a methylcellulose modified with a small amount of propylene glycol ether groups attached to the anhydroglucose of the cellulose. HPMC Capsules are two-piece capsules made from cellulosic raw materials that satisfy vegetarian, religion, cultural and policy needs. These vegetable capsules are an attractive, all natural dosage form that retain all the advantages - easy to swallow, effectively mask taste and odor, and allow product visibility. These capsules are also starch-free, gluten-free and preservative-free, and meet the strict dietary needs of customers that choose a vegetarian lifestyle. HPMC (Hydroxypropyl methylcellulose) capsules have been developed for both Health Supplements products and Nutraceutical.
