Stand-On Zero Turn Mower is a mower designed for fast and efficient lawn mowing. The operator stands to operate it, providing flexible control and comfort. This machine uses zero-turn technology, allowing the front and rear wheels to rotate independently, enabling full-range steering and greatly improving maneuverability, especially for lawns with complex terrain or obstacles. Compared with traditional riding mowers, the stand-on design allows the operator to quickly adjust the position in a smaller space, thereby improving work efficiency and reducing operation time.
