Global Super Engineering Plastics Market 2025 by Manufacturers, Regions, Type and Application, Forecast to 2031

https://marketpublishers.com/r/SB71DD8EEC2DEN.html
Date: July 2025
Pages: 112
Price: US$ 3,480.00 (Single User License)
ID: SB71DD8EEC2DEN

Abstracts

According to our (Global Info Research) latest study, the global Super Engineering Plastics market size was valued at US$ 15180 million in 2024 and is forecast to a readjusted size of USD 20450 million by 2031 with a CAGR of 4.4% during review period.

Plastics basically fall into two categories: thermosetting resin and thermoplastic resin. Thermoplastic resin is further classified into general purpose plastics and engineering plastics. Engineering plastics are classified as thermoplastic resin that can withstand heat of over 100?C. Even more heat-resistant thermoplastic resins able to be used for a long period in heat of over 150?C are called “super engineering plastics.”

Super engineering plastics are at the highest end of the spectrum, generally with very high strength and thermal resistance. They are used in high temperature, high stress applications, in harsh environments, and low to medium volume production.

The market is fragmented. Top 5 companies accounted for 28.21% market share.

This report is a detailed and comprehensive analysis for global Super Engineering Plastics market. Both quantitative and qualitative analyses are presented by manufacturers, by region & country, by Type and by Downstream Industry. As the market is constantly changing, this report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2025, are provided.

Key Features:

Global Super Engineering Plastics market size and forecasts, in consumption value ($ Million), sales quantity (Kilo MT), and average selling prices (USD/MT), 2020-2031

Global Super Engineering Plastics market size and forecasts by region and country, in consumption value ($ Million), sales quantity (Kilo MT), and average selling prices (USD/MT), 2020-2031

Global Super Engineering Plastics market size and forecasts, by Type and by Downstream Industry, in consumption value ($ Million), sales quantity (Kilo MT), and average selling prices (USD/MT), 2020-2031

Global Super Engineering Plastics market shares of main players, shipments in revenue ($ Million), sales quantity (Kilo MT), and ASP (USD/MT), 2020-2025

The Primary Objectives in This Report Are:

To determine the size of the total market opportunity of global and key countries
To assess the growth potential for Super Engineering Plastics
To forecast future growth in each product and end-use market
To forecast future factors affecting the marketplace

This report profiles key players in the global Super Engineering Plastics market based on the following parameters - company overview, sales quantity, revenue, price, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include Toray, DIC, Solvay, Celanese, Kureha, SK Chemical, Tosoh, Sumitomo Chemical, SABIC, Polyplastics, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

Market Segmentation

Super Engineering Plastics market is split by Type and by Downstream Industry. For the period 2020-2031, the growth among segments provides accurate calculations and forecasts for consumption value by Type, and by Downstream Industry in terms of volume and value. This analysis can help you expand your business by targeting qualified niche markets.

info@marketpublishers.com

Market segment by Type

- Polyphenylene Sulfide (PPS)
- Polyimide (PI)
- Polysulfone (PSU)
- Liquid-Crystal Polymer (LCP)
- Polyetheretherketone (PEEK)
- Others

Market segment by Downstream Industry

- Automotive
- Electrical and Electronic
- Aerospace & Defense
- Machinery & Equipment
- Medical Devices
- Other

Major players covered

- Toray
- DIC
- Solvay

Celanese

Kureha

SK Chemical

Tosoh

Sumitomo Chemical

SABIC

Polyplastics

Evonik

Zhejiang NHU

Chongqing Glion

Market segment by region, regional analysis covers
North America (United States, Canada, and Mexico)
Europe (Germany, France, United Kingdom, Russia, Italy, and Rest of Europe)
Asia-Pacific (China, Japan, Korea, India, Southeast Asia, and Australia)
South America (Brazil, Argentina, Colombia, and Rest of South America)
Middle East & Africa (Saudi Arabia, UAE, Egypt, South Africa, and Rest of Middle East & Africa)

The content of the study subjects, includes a total of 15 chapters:

Chapter 1, to describe Super Engineering Plastics product scope, market overview, market estimation caveats and base year.

Chapter 2, to profile the top manufacturers of Super Engineering Plastics, with price, sales quantity, revenue, and global market share of Super Engineering Plastics from 2020 to 2025.

Chapter 3, the Super Engineering Plastics competitive situation, sales quantity,

+357 96 030922
info@marketpublishers.com

revenue, and global market share of top manufacturers are analyzed emphatically by landscape contrast.

Chapter 4, the Super Engineering Plastics breakdown data are shown at the regional level, to show the sales quantity, consumption value, and growth by regions, from 2020 to 2031.

Chapter 5 and 6, to segment the sales by Type and by Downstream Industry, with sales market share and growth rate by Type, by Downstream Industry, from 2020 to 2031.

Chapter 7, 8, 9, 10 and 11, to break the sales data at the country level, with sales quantity, consumption value, and market share for key countries in the world, from 2020 to 2025.and Super Engineering Plastics market forecast, by regions, by Type, and by Downstream Industry, with sales and revenue, from 2026 to 2031.

Chapter 12, market dynamics, drivers, restraints, trends, and Porters Five Forces analysis.

Chapter 13, the key raw materials and key suppliers, and industry chain of Super Engineering Plastics.

Chapter 14 and 15, to describe Super Engineering Plastics sales channel, distributors, customers, research findings and conclusion.
