Abstracts

KNX Products (Konnex) is the worldwide standard for home and building control. The standard is based on the communication stack of EIB but enlarged with the physical layers, configuration modes and application experience of BatiBUS and EHS. KNX Products defines several physical communication media: Twisted pair wiring (inherited from the BatiBUS and EIB Instabus standards); Powerline networking (inherited from EIB and EHS - similar to that used by X10); Radio (KNX Products-RF); Infrared; Ethernet (also known as EIBnet/IP or KNX Productsnet/IP). The most common form of installation is over twisted pair medium.
