Abstracts

According to our (Global Info Research) latest study, the global UV Absorber UV-531 market size was valued at US\$ 223 million in 2025 and is forecast to a readjusted size of US\$ 286 million by 2032 with a CAGR of 3.6% during review period.

In 2025, the global production of UV Absorber UV-531 was approximately 27,300 tons, with an average selling price of approximately US\$7,938 per ton. The production capacity in 2025 was 31,200 tons, with an average gross profit margin of approximately 10% - 20%. UV-531 is a highly effective benzophenone-type anti-aging additive, chemically known as 2-hydroxy-4-n-octoxybenzophenone. It strongly absorbs ultraviolet light in the 240-340 nm range, protecting polymers (such as plastics, coatings, and rubber) from UV damage by converting UV energy into harmless heat. This prevents material discoloration, yellowing, and degradation of physical properties. It is suitable for food contact materials and features non-toxicity, good compatibility, and low migration.

The core upstream raw materials for UV-531 are basic chemical products such as resorcinol, aluminum trichloride, and octanoyl chloride. Its downstream applications are highly concentrated in the plastics industry, where it is widely used as a key light stabilizer in general-purpose plastics such as polypropylene, polyethylene, and polyvinyl chloride, used in outdoor building materials, automotive parts, packaging films, and synthetic fibers, to prevent aging, yellowing, and performance degradation caused by sunlight and ultraviolet radiation.

This report is a detailed and comprehensive analysis for global UV Absorber UV-531 market. Both quantitative and qualitative analyses are presented by manufacturers, by region & country, by Type and by Application. As the market is constantly changing, this

report explores the competition, supply and demand trends, as well as key factors that contribute to its changing demands across many markets. Company profiles and product examples of selected competitors, along with market share estimates of some of the selected leaders for the year 2025, are provided.

Key Features:

Global UV Absorber UV-531 market size and forecasts, in consumption value (\$ Million), sales quantity (Tons), and average selling prices (US\$/Ton), 2021-2032

Global UV Absorber UV-531 market size and forecasts by region and country, in consumption value (\$ Million), sales quantity (Tons), and average selling prices (US\$/Ton), 2021-2032

Global UV Absorber UV-531 market size and forecasts, by Type and by Application, in consumption value (\$ Million), sales quantity (Tons), and average selling prices (US\$/Ton), 2021-2032

Global UV Absorber UV-531 market shares of main players, shipments in revenue (\$ Million), sales quantity (Tons), and ASP (US\$/Ton), 2021-2026

The Primary Objectives in This Report Are:

- To determine the size of the total market opportunity of global and key countries
- To assess the growth potential for UV Absorber UV-531
- To forecast future growth in each product and end-use market
- To assess competitive factors affecting the marketplace

This report profiles key players in the global UV Absorber UV-531 market based on the following parameters - company overview, sales quantity, revenue, price, gross margin, product portfolio, geographical presence, and key developments. Key companies covered as a part of this study include BASF, SONGWON Industrial, ADEKA, Everlight Chemical, Suzhou Wedo Chemicals, Fujian Disheng Technology, Dafeng Tiansheng Pharmaceutical, Beijing Tiangang Additives, Qingdao Jade New Material Technology, Nanjing Aurora New Material Technology, etc.

This report also provides key insights about market drivers, restraints, opportunities, new product launches or approvals.

Market Segmentation

UV Absorber UV-531 market is split by Type and by Application. For the period 2021-2032, the growth among segments provides accurate calculations and forecasts for consumption value by Type, and by Application in terms of volume and value. This analysis can help you expand your business by targeting qualified niche markets.

Market segment by Type

Powder

Granule

Market segment by Purity

Purity

Contents

1 MARKET OVERVIEW

1.1 Product Overview and Scope

1.2 Market Estimation Caveats and Base Year

1.3 Market Analysis by Type

1.3.1 Overview: Global UV Absorber UV-531 Consumption Value by Type: 2021 Versus 2025 Versus 2032

1.3.2 Powder

1.3.3 Granule

1.4 Market Analysis by Purity

1.4.1 Overview: Global UV Absorber UV-531 Consumption Value by Purity: 2021 Versus 2025 Versus 2032

1.4.2 Purity
