## Abstracts

According to our latest research, the global Vertical Screen Short Drama market size will reach USD million in 2031, growing at a CAGR of %over the analysis period.

Short dramas, also known as 'micro short dramas' and 'small theaters', refer to a new type of film and television format with a shorter episode length than traditional TV dramas, lower production costs, mainly disseminated through small mobile screens, and produced by Internet celebrities. At present, the daily recharge consumption of paid micro short dramas on all domestic platforms is already around 60 million yuan. According to the '2023 China Internet Audiovisual Development Research Report', in the past six months, 50.4% of the more than 1 billion short video users in my country have watched micro short dramas, micro variety shows, and instant noodles within 3 minutes. Fast-paced, high-density, and exaggerated plots are the biggest characteristics of micro short dramas, and they are also their magic weapon for attracting money. Tianyancha data shows that there are more than 230 micro short drama-related companies in the country, of which more than 30 new registered companies were added from January to October 2023, an increase of 225% year-on-year compared with 2022.
