## Abstracts

Acid Sphingomyelinase Deficiency Type C - Pipeline Review, H1 2017

### SUMMARY

Global Markets Direct's latest Pharmaceutical and Healthcare disease pipeline guide Acid Sphingomyelinase Deficiency Type C - Pipeline Review, H1 2017, provides an overview of the Acid Sphingomyelinase Deficiency Type C (Genetic Disorders) pipeline landscape.

Niemann-Pick C disease is one of a group of lysosomal storage diseases that affect metabolism and that are caused by genetic mutations. It involves the accumulation of sphingolipids in cells throughout the body, particularly reticuloendothelial cells (the mononuclear phagocyte system). Symptoms include enlarged liver, brain damage, difficulty walking and swallowing, increased sensitivity to touch, difficulty speaking, loss of muscle tone, learning difficulties.

### REPORT HIGHLIGHTS

Global Markets Direct's Pharmaceutical and Healthcare latest pipeline guide Acid Sphingomyelinase Deficiency Type C - Pipeline Review, H1 2017, provides comprehensive information on the therapeutics under development for Acid Sphingomyelinase Deficiency Type C (Genetic Disorders), complete with analysis by stage of development, drug target, mechanism of action (MoA), route of administration (RoA) and molecule type. The guide covers the descriptive pharmacological action of the therapeutics, its complete research and development history and latest news and press releases.

The Acid Sphingomyelinase Deficiency Type C (Genetic Disorders) pipeline guide also reviews of key players involved in therapeutic development for Acid Sphingomyelinase Deficiency (Niemann-Pick Disease) Type C and features dormant and discontinued projects. The guide covers therapeutics under Development by Companies/Universities/Institutes, the molecules developed by Companies in Phase III, Phase II, Phase I, Preclinical and Discovery stages are 2, 2, 1, 5 and 2 respectively. Similarly, the Universities portfolio in Preclinical and Discovery stages comprises 3 and 2 molecules, respectively.

Acid Sphingomyelinase Deficiency Type C (Genetic Disorders) pipeline guide helps in identifying and tracking emerging players in the market and their portfolios, enhances decision making capabilities and helps to create effective counter strategies to gain competitive advantage. The guide is built using data and information sourced from Global Markets Direct's proprietary databases, company/university websites, clinical trial registries, conferences, SEC filings, investor presentations and featured press releases from company/university sites and industry-specific third party sources. Additionally, various dynamic tracking processes ensure that the most recent developments are captured on a real time basis.

**Note:** Certain content/sections in the pipeline guide may be removed or altered based on the availability and relevance of data.

## **SCOPE**

The pipeline guide provides a snapshot of the global therapeutic landscape of Acid Sphingomyelinase Deficiency Type C (Genetic Disorders).

The pipeline guide reviews pipeline therapeutics for Acid Sphingomyelinase Deficiency Type C (Genetic Disorders) by companies and universities/research institutes based on information derived from company and industry-specific sources.

The pipeline guide covers pipeline products based on several stages of development ranging from pre-registration till discovery and undisclosed stages.

The pipeline guide features descriptive drug profiles for the pipeline products which comprise, product description, descriptive licensing and collaboration details, R&D brief, MoA & other developmental activities.

The pipeline guide reviews key companies involved in Acid Sphingomyelinase Deficiency Type C (Genetic Disorders) therapeutics and enlists all their major and minor projects.

The pipeline guide evaluates Acid Sphingomyelinase Deficiency Type C (Genetic Disorders) therapeutics based on mechanism of action (MoA), drug target, route of administration (RoA) and molecule type.

The pipeline guide encapsulates all the dormant and discontinued pipeline projects.

The pipeline guide reviews latest news related to pipeline therapeutics for Acid Sphingomyelinase Deficiency Type C (Genetic Disorders)

## **REASONS TO BUY**

Procure strategically important competitor information, analysis, and insights to formulate effective R&D strategies.

Recognize emerging players with potentially strong product portfolio and create effective counter-strategies to gain competitive advantage.

Find and recognize significant and varied types of therapeutics under development for Acid Sphingomyelinase Deficiency Type C (Genetic Disorders).

Classify potential new clients or partners in the target demographic.

Develop tactical initiatives by understanding the focus areas of leading companies.

Plan mergers and acquisitions meritoriously by identifying key players and it's most promising pipeline therapeutics.

Formulate corrective measures for pipeline projects by understanding Acid Sphingomyelinase Deficiency Type C (Genetic Disorders) pipeline depth and focus of Indication therapeutics.

Develop and design in-licensing and out-licensing strategies by identifying prospective partners with the most attractive projects to enhance and expand business potential and scope.

Adjust the therapeutic portfolio by recognizing discontinued projects and understand from the know-how what drove them from pipeline.

## Contents

Introduction

Global Markets Direct Report Coverage

Acid Sphingomyelinase Deficiency (Niemann-Pick Disease) Type C - Overview

Acid Sphingomyelinase Deficiency (Niemann-Pick Disease) Type C - Therapeutics

Acid Sphingomyelinase Deficiency (Niemann-Pick Disease) Type C - Pipeline by Sucampo Pharmaceuticals Inc, H1 2017

Acid Sphingomyelinase Deficiency (Niemann-Pick Disease) Type C - Dormant Projects, H1 2017

## List Of Figures

### LIST OF FIGURES

Number of Products under Development for Acid Sphingomyelinase Deficiency (Niemann-Pick Disease) Type C, H1 2017

Number of Products under Development by Companies, H1 2017

Number of Products under Development by Universities/Institutes, H1 2017

Number of Products by Top 10 Targets, H1 2017

Number of Products by Stage and Top 10 Targets, H1 2017

Number of Products by Top 10 Mechanism of Actions, H1 2017

Number of Products by Stage and Top 10 Mechanism of Actions, H1 2017

Number of Products by Routes of Administration, H1 2017

Number of Products by Stage and Routes of Administration, H1 2017

Number of Products by Molecule Types, H1 2017

Number of Products by Stage and Molecule Types, H1 2017

### COMPANIES MENTIONED

CTD Holdings Inc

Merck & Co Inc

Okklo Life Sciences BV

Orphazyme ApS

Sucampo Pharmaceuticals Inc

## I would like to order

Product name: Acid Sphingomyelinase Deficiency Type C - Pipeline Review, H1 2017

Product link: <https://marketpublishers.com/r/A9163892A9BEN.html>

Price: US\$ 2,000.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:

[info@marketpublishers.com](mailto:info@marketpublishers.com)

## Payment

To pay by Credit Card (Visa, MasterCard, American Express, PayPal), please, click button on product page <https://marketpublishers.com/r/A9163892A9BEN.html>

To pay by Wire Transfer, please, fill in your contact details in the form below:
