Allergic Conjunctivitis - Pipeline Review, H1 2020

SUMMARY

Global Markets Direct's latest Pharmaceutical and Healthcare disease pipeline guide Allergic Conjunctivitis - Pipeline Review, H1 2020, provides an overview of the Allergic Conjunctivitis (Ophthalmology) pipeline landscape.

Allergic conjunctivitis occurs when the clear layer of tissue lining the eyelids and covering the white of the eye (conjunctiva) become swollen or inflamed due to a reaction to pollen, dander, mold, or other allergy-causing substances. Symptoms include intense itching, puffy eyelids, widened (dilated) vessels in the clear tissue covering the white of the eye and stringy eye discharge. Treatment includes antihistamine or anti-inflammatory medication.

REPORT HIGHLIGHTS

Global Markets Direct's Pharmaceutical and Healthcare latest pipeline guide Allergic Conjunctivitis - Pipeline Review, H1 2020, provides comprehensive information on the therapeutics under development for Allergic Conjunctivitis (Ophthalmology), complete with analysis by stage of development, drug target, mechanism of action (MoA), route of administration (RoA) and molecule type. The guide covers the descriptive pharmacological action of the therapeutics, its complete research and development history and latest news and press releases.

The Allergic Conjunctivitis (Ophthalmology) pipeline guide also reviews of key players involved in therapeutic development for Allergic Conjunctivitis and features dormant and discontinued projects. The guide covers therapeutics under Development by

Companies/Universities/Institutes, the molecules developed by Companies in Phase III, Phase II, Phase I, Preclinical and Discovery stages are 3, 3, 2, 8 and 1 respectively.

Allergic Conjunctivitis (Ophthalmology) pipeline guide helps in identifying and tracking emerging players in the market and their portfolios, enhances decision making capabilities and helps to create effective counter strategies to gain competitive advantage. The guide is built using data and information sourced from Global Markets Direct's proprietary databases, company/university websites, clinical trial registries, conferences, SEC filings, investor presentations and featured press releases from company/university sites and industry-specific third party sources. Additionally, various dynamic tracking processes ensure that the most recent developments are captured on a real time basis.

Note: Certain content/sections in the pipeline guide may be removed or altered based on the availability and relevance of data.

SCOPE

The pipeline guide provides a snapshot of the global therapeutic landscape of Allergic Conjunctivitis (Ophthalmology).

The pipeline guide reviews pipeline therapeutics for Allergic Conjunctivitis (Ophthalmology) by companies and universities/research institutes based on information derived from company and industry-specific sources.

The pipeline guide covers pipeline products based on several stages of development ranging from pre-registration till discovery and undisclosed stages.

The pipeline guide features descriptive drug profiles for the pipeline products which comprise, product description, descriptive licensing and collaboration details, R&D brief, MoA & other developmental activities.

The pipeline guide reviews key companies involved in Allergic Conjunctivitis (Ophthalmology) therapeutics and enlists all their major and minor projects.

The pipeline guide evaluates Allergic Conjunctivitis (Ophthalmology) therapeutics based on mechanism of action (MoA), drug target, route of administration (RoA) and molecule type.

The pipeline guide encapsulates all the dormant and discontinued pipeline projects.

The pipeline guide reviews latest news related to pipeline therapeutics for Allergic Conjunctivitis (Ophthalmology)

REASONS TO BUY

Procure strategically important competitor information, analysis, and insights to formulate effective R&D strategies.

Recognize emerging players with potentially strong product portfolio and create effective counter-strategies to gain competitive advantage.

Find and recognize significant and varied types of therapeutics under development for Allergic Conjunctivitis (Ophthalmology).

Classify potential new clients or partners in the target demographic.

Develop tactical initiatives by understanding the focus areas of leading companies.

Plan mergers and acquisitions meritoriously by identifying key players and it's most promising pipeline therapeutics.

Formulate corrective measures for pipeline projects by understanding Allergic Conjunctivitis (Ophthalmology) pipeline depth and focus of Indication therapeutics.

Develop and design in-licensing and out-licensing strategies by identifying prospective partners with the most attractive projects to enhance and expand business potential and scope.

Adjust the therapeutic portfolio by recognizing discontinued projects and understand from the know-how what drove them from pipeline.

Featured News & Press Releases

Feb 24, 2020: Aldeyra Therapeutics to provide update on late-stage clinical development pipeline at 2020 Research & Development Day

Jan 22, 2020: Aldeyra Therapeutics begins enrolment in allergic conjunctivitis study

Oct 31, 2019: Aldeyra Therapeutics releases expanded results from allergen chamber trial and announces plans to initiate the phase 3 INVIGORATE trial in patients with Allergic Conjunctivitis

Oct 30, 2019: Aldeyra Therapeutics to host conference call and webcast to release expanded results from allergen chamber trial and announce design of Phase 3 INVIGORATE trial in patients with allergic conjunctivitis

Oct 23, 2019: Eleusis presents new research on the anti-inflammatory potential of serotonin 2A receptor agonists at the 2019 International Society for Research on Psychedelics

Sep 26, 2019: Aldeyra Therapeutics to present phase 3 ALLEVIATE trial results in allergic conjunctivitis at American Academy of Ophthalmology 2019 Annual Meeting

Sep 24, 2019: Ocular Therapeutix announces first patient dosed in phase 3 clinical trial of DEXTENZA for the treatment of Allergic Conjunctivitis

May 07, 2019: Allakos announces positive Results with AK002 in patients with Severe Allergic Conjunctivitis

Apr 24, 2019: Ocular Therapeutix to present new data on DEXTENZA at the Association for Research in Vision and Ophthalmology (ARVO) Annual Meeting and at the American Society of Cataract and Refractive Surgery (ASCRS) Symposium

Mar 27, 2019: Aldeyra's ALLEVIATE trial of reproxalap eyedrops meets endpoints

Mar 25, 2019: Aldeyra Therapeutics schedules webcast and conference call to announce top-line results from the phase 3 ALLEVIATE trial in Allergic Conjunctivitis

Dec 20, 2018: Aldeyra Therapeutics announces last patient dosed in the ALLEVIATE phase 3 clinical trial

Nov 28, 2018: Viennese Biotech company Marinomed demonstrates the benefits of its patented Marinosolv Technology of Tacrosolv

May 07, 2018: Sylentis announces new data on the treatment of allergic conjunctivitis

Apr 24, 2018: Aldeyra Therapeutics Announces First Patient Enrolled in Allergic Conjunctivitis Phase 3 Clinical Trial
