Abstracts

Anaphylaxis - Pipeline Review, H1 2020

SUMMARY

Global Markets Direct's latest Pharmaceutical and Healthcare disease pipeline guide Anaphylaxis – Pipeline Review, H1 2020, provides an overview of the Anaphylaxis (Immunology) pipeline landscape.

Anaphylaxis is a severe, potentially life-threatening allergic reaction. Anaphylaxis symptoms include dizziness, nausea, vomiting or diarrhea, feeling of warmth, constriction of the airways and a swollen tongue or throat. Risk factors include personal history of anaphylaxis, allergies or asthma and family history. Treatment includes beta-agonist, antihistamines and cortisone.

REPORT HIGHLIGHTS

Global Markets Direct's Pharmaceutical and Healthcare latest pipeline guide Anaphylaxis – Pipeline Review, H1 2020, provides comprehensive information on the therapeutics under development for Anaphylaxis (Immunology), complete with analysis by stage of development, drug target, mechanism of action (MoA), route of administration (RoA) and molecule type. The guide covers the descriptive pharmacological action of the therapeutics, its complete research and development history and latest news and press releases.

The Anaphylaxis (Immunology) pipeline guide also reviews of key players involved in therapeutic development for Anaphylaxis and features dormant and discontinued projects. The guide covers therapeutics under Development by Companies/Universities/Institutes, the molecules developed by Companies in Phase II,

Phase I and Preclinical stages are 1, 4 and 4 respectively. Similarly, the Universities portfolio in Preclinical stages comprises 2 molecules, respectively.

Anaphylaxis (Immunology) pipeline guide helps in identifying and tracking emerging players in the market and their portfolios, enhances decision making capabilities and helps to create effective counter strategies to gain competitive advantage. The guide is built using data and information sourced from Global Markets Direct's proprietary databases, company/university websites, clinical trial registries, conferences, SEC filings, investor presentations and featured press releases from company/university sites and industry-specific third party sources. Additionally, various dynamic tracking processes ensure that the most recent developments are captured on a real time basis.

Note: Certain content/sections in the pipeline guide may be removed or altered based on the availability and relevance of data.

SCOPE

The pipeline guide provides a snapshot of the global therapeutic landscape of Anaphylaxis (Immunology).

The pipeline guide reviews pipeline therapeutics for Anaphylaxis (Immunology) by companies and universities/research institutes based on information derived from company and industry-specific sources.

The pipeline guide covers pipeline products based on several stages of development ranging from pre-registration till discovery and undisclosed stages.

The pipeline guide features descriptive drug profiles for the pipeline products which comprise, product description, descriptive licensing and collaboration details, R&D brief, MoA & other developmental activities.

The pipeline guide reviews key companies involved in Anaphylaxis (Immunology) therapeutics and enlists all their major and minor projects.

The pipeline guide evaluates Anaphylaxis (Immunology) therapeutics based on mechanism of action (MoA), drug target, route of administration (RoA) and molecule type.

The pipeline guide encapsulates all the dormant and discontinued pipeline

projects.

The pipeline guide reviews latest news related to pipeline therapeutics for Anaphylaxis (Immunology)

REASONS TO BUY

Procure strategically important competitor information, analysis, and insights to formulate effective R&D strategies.

Recognize emerging players with potentially strong product portfolio and create effective counter-strategies to gain competitive advantage.

Find and recognize significant and varied types of therapeutics under development for Anaphylaxis (Immunology).

Classify potential new clients or partners in the target demographic.

Develop tactical initiatives by understanding the focus areas of leading companies.

Plan mergers and acquisitions meritoriously by identifying key players and it's most promising pipeline therapeutics.

Formulate corrective measures for pipeline projects by understanding Anaphylaxis (Immunology) pipeline depth and focus of Indication therapeutics.

Develop and design in-licensing and out-licensing strategies by identifying prospective partners with the most attractive projects to enhance and expand business potential and scope.

Adjust the therapeutic portfolio by recognizing discontinued projects and understand from the know-how what drove them from pipeline.

Featured News & Press Releases

May 04, 2020: Neurelis announces that Intravail Licensee, ARS Pharmaceuticals intranasal epinephrine product, demonstrates bioequivalent exposure to epinephrine

injectors

Apr 06, 2020: Bryn Pharma presents data demonstrating comparable pharmacokinetic and pharmacodynamic effects of intranasal Epinephrine to intramuscular Epinephrine in adults

Mar 02, 2020: ARS Pharmaceuticals to present new data from Neffy (ARS-1) studies at AAAAI 2020 annual meeting

Feb 06, 2020: Aquestive Therapeutics announces FDA confirmed 505(b)(2) pathway for AQST-108 (sublingual film formulation delivering systemic epinephrine) for anaphylaxis treatment

Nov 10, 2019: Bryn Pharma Research on Epinephrine Nasal Spray Presented at The American College of Allergy, Asthma and Immunology Annual Meeting

Oct 29, 2019: Bryn Pharma presents data demonstrating patient preference for bi-dose epinephrine nasal spray over EpiPen

Oct 10, 2019: Bryn Pharma completes dosing in pivotal clinical trial designed to support U.S. approval of Intranasal Epinephrine Spray

Sep 30, 2019: Aquestive Therapeutics Announces Successful Completion of Phase 1 Trial for AQST-108 (Sublingual Film Formulation Delivering Systemic Epinephrine)

Jun 04, 2019: ARS Pharmaceuticals announces results from EPI-04 clinical study of ARS-1 Intranasal Epinephrine Spray in Allergy Patients with Allergic Rhinitis

Feb 25, 2019: INSYS Therapeutics presented poster of initial pharmacokinetic study of Epinephrine Nasal Spray for the emergency treatment of allergic reactions (Type I) including anaphylaxis at American Academy of Allergy, Asthma and Immunology Annual Meeting

Feb 19, 2019: ARS Pharmaceuticals announces FDA Fast Track Designation for ARS-1 intranasal epinephrine spray

Dec 19, 2018: ARS Pharmaceuticals advances clinical program for intranasal epinephrine spray

Dec 17, 2018: INSYS Therapeutics provides update on Epinephrine nasal spray for anaphylaxis

Aug 30, 2018: FDA Grants INSYS Therapeutics Fast Track Designation for Epinephrine Nasal Spray as Investigational Treatment for Anaphylaxis

Jun 14, 2018: Epinephrine Nasal Spray in Development for Treatment of Anaphylaxis Shows Promise as Potential Alternative to Intramuscular Injection
