## Abstracts

Axial Spondyloarthritis Drugs in Development by Stages, Target, MoA, RoA, Molecule Type and Key Players, 2022 Update

### SUMMARY

Global Markets Direct's latest Pharmaceutical and Healthcare disease pipeline guide Axial Spondyloarthritis - Drugs In Development, 2022, provides an overview of the Axial Spondyloarthritis (Musculoskeletal Disorders) pipeline landscape.

Axial spondylitis is a type of inflammatory arthritis involving the spine and/or sacroiliac joints. Axial spondylitis is strongly related to the presence of the HLA-B27 gene. A genetic test for HLA-B27 is available.

### REPORT HIGHLIGHTS

Global Markets Direct's Pharmaceutical and Healthcare latest pipeline guide Axial Spondyloarthritis - Drugs In Development, 2022, provides comprehensive information on the therapeutics under development for Axial Spondyloarthritis (Musculoskeletal Disorders), complete with analysis by stage of development, drug target, mechanism of action (MoA), route of administration (RoA) and molecule type. The guide covers the descriptive pharmacological action of the therapeutics, its complete research and development history and latest news and press releases.

The Axial Spondyloarthritis (Musculoskeletal Disorders) pipeline guide also reviews of key players involved in therapeutic development for Axial Spondyloarthritis and features

dormant and discontinued projects. The guide covers therapeutics under Development by Companies/Universities/Institutes, the molecules developed by Companies in Pre-Registration, Phase III, Phase II, Phase I, IND/CTA Filed, Preclinical, Discovery and Unknown stages are 5, 11, 11, 12, 1, 17, 10 and 1 respectively.

Axial Spondyloarthritis (Musculoskeletal Disorders) pipeline guide helps in identifying and tracking emerging players in the market and their portfolios, enhances decision making capabilities and helps to create effective counter strategies to gain competitive advantage. The guide is built using data and information sourced from Global Markets Direct's proprietary databases, company/university websites, clinical trial registries, conferences, SEC filings, investor presentations and featured press releases from company/university sites and industry-specific third party sources. Additionally, various dynamic tracking processes ensure that the most recent developments are captured on a real time basis.

**Note:** Certain content/sections in the pipeline guide may be removed or altered based on the availability and relevance of data.

## SCOPE

The pipeline guide provides a snapshot of the global therapeutic landscape of Axial Spondyloarthritis (Musculoskeletal Disorders).

The pipeline guide reviews pipeline therapeutics for Axial Spondyloarthritis (Musculoskeletal Disorders) by companies and universities/research institutes based on information derived from company and industry-specific sources.

The pipeline guide covers pipeline products based on several stages of development ranging from pre-registration till discovery and undisclosed stages.

The pipeline guide features descriptive drug profiles for the pipeline products which comprise, product description, descriptive licensing and collaboration details, R&D brief, MoA & other developmental activities.

The pipeline guide reviews key companies involved in Axial Spondyloarthritis (Musculoskeletal Disorders) therapeutics and enlists all their major and minor projects.

The pipeline guide evaluates Axial Spondyloarthritis (Musculoskeletal Disorders)

therapeutics based on mechanism of action (MoA), drug target, route of administration (RoA) and molecule type.

The pipeline guide encapsulates all the dormant and discontinued pipeline projects.

The pipeline guide reviews latest news related to pipeline therapeutics for Axial Spondyloarthritis (Musculoskeletal Disorders)

## **REASONS TO BUY**

Procure strategically important competitor information, analysis, and insights to formulate effective R&D strategies.

Recognize emerging players with potentially strong product portfolio and create effective counter-strategies to gain competitive advantage.

Find and recognize significant and varied types of therapeutics under development for Axial Spondyloarthritis (Musculoskeletal Disorders).

Classify potential new clients or partners in the target demographic.

Develop tactical initiatives by understanding the focus areas of leading companies.

Plan mergers and acquisitions meritoriously by identifying key players and it's most promising pipeline therapeutics.

Formulate corrective measures for pipeline projects by understanding Axial Spondyloarthritis (Musculoskeletal Disorders) pipeline depth and focus of Indication therapeutics.

Develop and design in-licensing and out-licensing strategies by identifying prospective partners with the most attractive projects to enhance and expand business potential and scope.

Adjust the therapeutic portfolio by recognizing discontinued projects and understand from the know-how what drove them from pipeline.

Featured News & Press Releases

Aug 17, 2022: NICE Recommends RINVOQ (upadacitinib) as a treatment option for active ankylosing spondylitis (AS) in adults

Aug 08, 2022: Lilly's Taltz (ixekizumab) now available in new, citrate-free formulation to reduce injection site pain for improved patient experience

Jul 29, 2022: RINVOQ (upadacitinib) approved by European Commission as an oral treatment for adults with active non-radiographic axial spondyloarthritis

Jul 27, 2022: Mabpharm announces approval of clinical trial application of CMAB015 by the National Medical Products Administration of China

Jul 21, 2022: Sandoz Supplemental Biologics License Application accepted by US FDA for biosimilar Hyrimoz (adalimumab-adaz) high concentration formulation (HCF)

Jul 20, 2022: Health Canada approves AbbVie's RINVOQ® (upadacitinib) for the treatment of adults with active ankylosing spondylitis

Jun 27, 2022: CHMP recommends approval of Upadacitinib (RINVOQ) for the treatment of adults with active non-radiographic axial spondyloarthritis

Jun 01, 2022: AbbVie Presents Positive Results from Phase 3 SELECT-AXIS 2 Trials of Upadacitinib (RINVOQ®) in Patients with Axial Spondyloarthritis at EULAR 2022

Jun 01, 2022: AbbVie Presents Positive Results from Phase 3 SELECT-AXIS 2 Trials of Upadacitinib (RINVOQ®) in Patients with Axial Spondyloarthritis at EULAR 2022

May 23, 2022: First presentations of phase 3 data for Bimekizumab across the full

spectrum of Axial Spondyloarthritis to be Shared at EULAR 2022

May 02, 2022: FDA grants approval for AbbVie's Rinvoq to treat ankylosing spondylitis

Apr 11, 2022: Celltrion Healthcare announces the availability of Yuflyma, a high-concentration, low-volume, citrate-free, and latex-free Humira (adalimumab) biosimilar in Canada

Jan 20, 2022: Lynk doses first patient in Phase II ankylosing spondylitis drug trial

Jan 18, 2022: Positive top-line results for bimekizumab in phase 3 non-radiographic axial spondyloarthritis study

Jan 07, 2022: AbbVie submits applications for Upadacitinib (RINVOQ) in non-radiographic axial spondyloarthritis to U.S. Food and Drug Administration (FDA) and European Medicines Agency (EMA)
