## Abstracts

Basal Cell Carcinoma - Pipeline Review, H1 2017

### SUMMARY

Global Markets Direct's latest Pharmaceutical and Healthcare disease pipeline guide Basal Cell Carcinoma - Pipeline Review, H1 2017, provides an overview of the Basal Cell Carcinoma (Oncology) pipeline landscape.

Basal cell carcinoma is a type of skin cancer which begins in the basal cells. Symptoms include waxy bump, scaly, brown or flesh-colored patch and white, waxy scar. Predisposing factors include age, family history, and exposure to radiation and immunosuppressant medications. Treatment includes chemotherapy and surgery.

### REPORT HIGHLIGHTS

Global Markets Direct's Pharmaceutical and Healthcare latest pipeline guide Basal Cell Carcinoma - Pipeline Review, H1 2017, provides comprehensive information on the therapeutics under development for Basal Cell Carcinoma (Oncology), complete with analysis by stage of development, drug target, mechanism of action (MoA), route of administration (RoA) and molecule type. The guide covers the descriptive pharmacological action of the therapeutics, its complete research and development history and latest news and press releases.

The Basal Cell Carcinoma (Oncology) pipeline guide also reviews of key players involved in therapeutic development for Basal Cell Carcinoma (Basal Cell Epithelioma) and features dormant and discontinued projects. The guide covers therapeutics under Development by Companies/Universities/Institutes, the molecules developed by Companies in Phase III, Phase II, Phase I and Preclinical stages are 2, 5, 3 and 6

respectively.

Basal Cell Carcinoma (Oncology) pipeline guide helps in identifying and tracking emerging players in the market and their portfolios, enhances decision making capabilities and helps to create effective counter strategies to gain competitive advantage. The guide is built using data and information sourced from Global Markets Direct's proprietary databases, company/university websites, clinical trial registries, conferences, SEC filings, investor presentations and featured press releases from company/university sites and industry-specific third party sources. Additionally, various dynamic tracking processes ensure that the most recent developments are captured on a real time basis.

**Note:** Certain content/sections in the pipeline guide may be removed or altered based on the availability and relevance of data.

## **SCOPE**

The pipeline guide provides a snapshot of the global therapeutic landscape of Basal Cell Carcinoma (Oncology).

The pipeline guide reviews pipeline therapeutics for Basal Cell Carcinoma (Oncology) by companies and universities/research institutes based on information derived from company and industry-specific sources.

The pipeline guide covers pipeline products based on several stages of development ranging from pre-registration till discovery and undisclosed stages.

The pipeline guide features descriptive drug profiles for the pipeline products which comprise, product description, descriptive licensing and collaboration details, R&D brief, MoA & other developmental activities.

The pipeline guide reviews key companies involved in Basal Cell Carcinoma (Oncology) therapeutics and enlists all their major and minor projects.

The pipeline guide evaluates Basal Cell Carcinoma (Oncology) therapeutics based on mechanism of action (MoA), drug target, route of administration (RoA) and molecule type.

The pipeline guide encapsulates all the dormant and discontinued pipeline

projects.

The pipeline guide reviews latest news related to pipeline therapeutics for Basal Cell Carcinoma (Oncology)

## **REASONS TO BUY**

Procure strategically important competitor information, analysis, and insights to formulate effective R&D strategies.

Recognize emerging players with potentially strong product portfolio and create effective counter-strategies to gain competitive advantage.

Find and recognize significant and varied types of therapeutics under development for Basal Cell Carcinoma (Oncology).

Classify potential new clients or partners in the target demographic.

Develop tactical initiatives by understanding the focus areas of leading companies.

Plan mergers and acquisitions meritoriously by identifying key players and it's most promising pipeline therapeutics.

Formulate corrective measures for pipeline projects by understanding Basal Cell Carcinoma (Oncology) pipeline depth and focus of Indication therapeutics.

Develop and design in-licensing and out-licensing strategies by identifying prospective partners with the most attractive projects to enhance and expand business potential and scope.

Adjust the therapeutic portfolio by recognizing discontinued projects and understand from the know-how what drove them from pipeline.

## Contents

Introduction

Global Markets Direct Report Coverage

Basal Cell Carcinoma (Basal Cell Epithelioma) - Overview

Basal Cell Carcinoma (Basal Cell Epithelioma) - Therapeutics Development

Pipeline Overview

Pipeline by Companies

Products under Development by Companies

Basal Cell Carcinoma (Basal Cell Epithelioma) - Therapeutics Assessment

Assessment by Target

Assessment by Mechanism of Action

Assessment by Route of Administration

Assessment by Molecule Type

Basal Cell Carcinoma (Basal Cell Epithelioma) - Companies Involved in Therapeutics Development

Biosceptre International Ltd

BLR Bio LLC

Cannabis Science Inc

Genextra Spa

Ignyta Inc

Laboratories Ojer Pharma SL

MediGene AG

Merck & Co Inc

Provectus Biopharmaceuticals Inc

Redx Pharma Plc

Regeneron Pharmaceuticals Inc

Shanghai Fudan-Zhangjiang Bio-Pharmaceutical Co Ltd
