Bcl 2 Like Protein 1 (Apoptosis Regulator BclX or BCLX or BCL2L1) - Pipeline Review, H2 2018

SUMMARY

Bcl 2 Like Protein 1 (Apoptosis Regulator BclX or BCLX or BCL2L1) - Bcl-2-like protein 1 is a protein encoded by the BCL2L1 gene. It belongs to BCL-2 family. It is a potent inhibitor of cell death. It inhibits activation of caspases. It regulate cell death by blocking the voltage-dependent anion channel by binding to it and preventing the release of the caspase activator (CYC1) from the mitochondrial membrane. It acts as a regulator of G2 checkpoint and progression to cytokinesis during mitosis.

Bcl 2 Like Protein 1 (Apoptosis Regulator BclX or BCLX or BCL2L1) pipeline Target constitutes close to 7 molecules. Out of which approximately 5 molecules are developed by companies and remaining by the universities/institutes. The molecules developed by companies in Phase II, Phase I and Preclinical stages are 2, 1 and 2 respectively. Similarly, the universities portfolio in Preclinical and Discovery stages comprises 1 and 1 molecules, respectively.

Report covers products from therapy areas Oncology, Infectious Disease and Musculoskeletal Disorders which include indications Small-Cell Lung Cancer, Lymphoma, Solid Tumor, Acute Lymphocytic Leukemia (ALL, Acute Lymphoblastic Leukemia), Chronic Lymphocytic Leukemia (CLL), Fibrosis, Glioblastoma Multiforme (GBM), Hepatocellular Carcinoma, Hormone-Sensitive Prostate Cancer, Lymphoblastic Lymphoma, Metastatic Melanoma, Methicillin-Resistant Staphylococcus aureus (MRSA) Infections, Myelofibrosis, Non-Small Cell Lung Cancer, Pancreatic Ductal

Adenocarcinoma, Post-Essential Thrombocythemia Myelofibrosis (Post-ET MF) and Post-Polycythemia Vera Myelofibrosis (PPV-MF).

The latest report Bcl 2 Like Protein 1 - Pipeline Review, H2 2018, outlays comprehensive information on the Bcl 2 Like Protein 1 (Apoptosis Regulator BclX or BCLX or BCL2L1) targeted therapeutics, complete with analysis by indications, stage of development, mechanism of action (MoA), route of administration (RoA) and molecule type. It also reviews key players involved in Bcl 2 Like Protein 1 (Apoptosis Regulator BclX or BCLX or BCL2L1) targeted therapeutics development with respective active and dormant or discontinued projects.

The report is built using data and information sourced from proprietary databases, company/university websites, clinical trial registries, conferences, SEC filings, investor presentations and featured press releases from company/university sites and industry-specific third party sources.

Note: Certain content/sections in the pipeline guide may be removed or altered based on the availability and relevance of data.

SCOPE

The report provides a snapshot of the global therapeutic landscape for Bcl 2 Like Protein 1 (Apoptosis Regulator BclX or BCLX or BCL2L1)

The report reviews Bcl 2 Like Protein 1 (Apoptosis Regulator BclX or BCLX or BCL2L1) targeted therapeutics under development by companies and universities/research institutes based on information derived from company and industry-specific sources

The report covers pipeline products based on various stages of development ranging from pre-registration till discovery and undisclosed stages

The report features descriptive drug profiles for the pipeline products which includes, product description, descriptive MoA, R&D brief, licensing and collaboration details & other developmental activities

The report reviews key players involved in Bcl 2 Like Protein 1 (Apoptosis Regulator BclX or BCLX or BCL2L1) targeted therapeutics and enlists all their major and minor projects

The report assesses Bcl 2 Like Protein 1 (Apoptosis Regulator BclX or BCLX or BCL2L1) targeted therapeutics based on mechanism of action (MoA), route of administration (RoA) and molecule type

The report summarizes all the dormant and discontinued pipeline projects

The report reviews latest news and deals related to Bcl 2 Like Protein 1 (Apoptosis Regulator BclX or BCLX or BCL2L1) targeted therapeutics

REASONS TO BUY

Gain strategically significant competitor information, analysis, and insights to formulate effective R&D strategies

Identify emerging players with potentially strong product portfolio and create effective counter-strategies to gain competitive advantage

Identify and understand the targeted therapy areas and indications for Bcl 2 Like Protein 1 (Apoptosis Regulator BclX or BCLX or BCL2L1)

Identify the use of drugs for target identification and drug repurposing

Identify potential new clients or partners in the target demographic

Develop strategic initiatives by understanding the focus areas of leading companies

Plan mergers and acquisitions effectively by identifying key players and it's most promising pipeline therapeutics

Devise corrective measures for pipeline projects by understanding Bcl 2 Like Protein 1 (Apoptosis Regulator BclX or BCLX or BCL2L1) development landscape

Develop and design in-licensing and out-licensing strategies by identifying prospective partners with the most attractive projects to enhance and expand business potential and scope

Contents

Introduction

Global Markets Direct Report Coverage
