Abstracts

Blepharitis (Ophthalmology) - Drugs In Development, 2021

SUMMARY

Global Markets Direct's latest Pharmaceutical and Healthcare disease pipeline guide Blepharitis - Drugs In Development, 2021, provides an overview of the Blepharitis (Ophthalmology) pipeline landscape.

Blepharitis is an inflammation of the eyelids, usually caused by an excess growth of bacteria that is ordinarily found on the skin, blockage of the eyelid's oil glands, and occasionally allergies. Blepharitis signs and symptoms include watery eyes, red eyes, itchy eyelids, sensitivity to light. Treatment includes antibiotics, lubricating eye drops and steroid eye drops or ointments.

REPORT HIGHLIGHTS

Global Markets Direct's Pharmaceutical and Healthcare latest pipeline guide Blepharitis - Drugs In Development, 2021, provides comprehensive information on the therapeutics under development for Blepharitis (Ophthalmology), complete with analysis by stage of development, drug target, mechanism of action (MoA), route of administration (RoA) and molecule type. The guide covers the descriptive pharmacological action of the therapeutics, its complete research and development history and latest news and press releases.

The Blepharitis (Ophthalmology) pipeline guide also reviews of key players involved in therapeutic development for Blepharitis and features dormant and discontinued

projects. The guide covers therapeutics under Development by Companies/Universities/Institutes, the molecules developed by Companies in Phase III, Phase II, Phase I, Preclinical and Discovery stages are 2, 3, 1, 7 and 2 respectively.

Blepharitis (Ophthalmology) pipeline guide helps in identifying and tracking emerging players in the market and their portfolios, enhances decision making capabilities and helps to create effective counter strategies to gain competitive advantage. The guide is built using data and information sourced from Global Markets Direct's proprietary databases, company/university websites, clinical trial registries, conferences, SEC filings, investor presentations and featured press releases from company/university sites and industry-specific third party sources. Additionally, various dynamic tracking processes ensure that the most recent developments are captured on a real time basis.

Note: Certain content/sections in the pipeline guide may be removed or altered based on the availability and relevance of data.

SCOPE

The pipeline guide provides a snapshot of the global therapeutic landscape of Blepharitis (Ophthalmology).

The pipeline guide reviews pipeline therapeutics for Blepharitis (Ophthalmology) by companies and universities/research institutes based on information derived from company and industry-specific sources.

The pipeline guide covers pipeline products based on several stages of development ranging from pre-registration till discovery and undisclosed stages.

The pipeline guide features descriptive drug profiles for the pipeline products which comprise, product description, descriptive licensing and collaboration details, R&D brief, MoA & other developmental activities.

The pipeline guide reviews key companies involved in Blepharitis (Ophthalmology) therapeutics and enlists all their major and minor projects.

The pipeline guide evaluates Blepharitis (Ophthalmology) therapeutics based on mechanism of action (MoA), drug target, route of administration (RoA) and molecule type.

The pipeline guide encapsulates all the dormant and discontinued pipeline projects.

The pipeline guide reviews latest news related to pipeline therapeutics for Blepharitis (Ophthalmology)

REASONS TO BUY

Procure strategically important competitor information, analysis, and insights to formulate effective R&D strategies.

Recognize emerging players with potentially strong product portfolio and create effective counter-strategies to gain competitive advantage.

Find and recognize significant and varied types of therapeutics under development for Blepharitis (Ophthalmology).

Classify potential new clients or partners in the target demographic.

Develop tactical initiatives by understanding the focus areas of leading companies.

Plan mergers and acquisitions meritoriously by identifying key players and it's most promising pipeline therapeutics.

Formulate corrective measures for pipeline projects by understanding Blepharitis (Ophthalmology) pipeline depth and focus of Indication therapeutics.

Develop and design in-licensing and out-licensing strategies by identifying prospective partners with the most attractive projects to enhance and expand business potential and scope.

Adjust the therapeutic portfolio by recognizing discontinued projects and understand from the know-how what drove them from pipeline.

Featured News & Press Releases

Jul 02, 2021: Nicox announces last patient completed NCX 4251 Mississippi phase 2b blepharitis trial

Jun 21, 2021: Tarsus Pharmaceuticals announces positive results of Saturn-1 pivotal trial evaluating TP-03 for the treatment of demodex blepharitis

Jun 18, 2021: Tarsus Pharmaceuticals schedules conference call and webcast to announce saturn-1 phase 2b/3 pivotal trial results for TP-03 for the treatment of Demodex Blepharitis

Jun 01, 2021: Nicox's completes pre-defined enrollment of NCX 4251 Mississippi phase 2b Blepharitis trial

May 06, 2021: Tarsus Pharmaceuticals initiates Saturn-2, second pivotal phase 3 trial evaluating the safety and efficacy of TP-03 for the treatment of Demodex blepharitis

May 03, 2021: Tarsus Pharmaceuticals presents results of pioneering Atlas study at ARVO 2021 annual meeting demonstrating the functional and psychosocial impact of demodex blepharitis

Apr 23, 2021: Nicox's NCX 4251 Mississippi Phase 2b blepharitis trial reaches 50% enrollment

Mar 17, 2021: Hovione completes its Phase 2 clinical trial of the first minocycline ophthalmic showing promise in Dry Eye Disease associated with Inflamed Meibomian Gland Dysfunction

Mar 02, 2021: Nicox provides video update on NCX 4251

Jan 19, 2021: Bausch + Lomb completes enrollment of first Phase 3 study for NOV03 (perfluorohexyloctane)

Dec 23, 2020: Tarsus Pharmaceuticals announces Type C meeting with FDA regarding NDA submission requirements for lead candidate TP-03

Dec 15, 2020: Nicox initiates phase 2b trial of NCX 4251, a potential first-in-class treatment for blepharitis

Nov 25, 2020: Bausch Health begins second trial of NOV03 to treat dry eye disease

Oct 13, 2020: Nicox announces plans for NCX 4251 phase 2 trial in blepharitis

Oct 06, 2020: Tarsus releases data from Io and Europa trials for TP-03 to treat demodex blepharitis and begins enrollment and treatment in Phase 2b/3 Saturn-1 trial
