## Abstracts

Bone Fracture - Pipeline Review, H1 2018

### SUMMARY

Global Markets Direct's latest Pharmaceutical and Healthcare disease pipeline guide Bone Fracture - Pipeline Review, H1 2018, provides an overview of the Bone Fracture (Musculoskeletal Disorders) pipeline landscape.

Fractures are simply a break in a bone caused by forces that exceed the strength of the osseous tissue in the bone. Signs and symptoms of a fracture include swelling or bruising over a bone, deformity of an arm or leg, loss of function in the injured area and in compound fractures, bone protruding from the skin.

### REPORT HIGHLIGHTS

Global Markets Direct's Pharmaceutical and Healthcare latest pipeline guide Bone Fracture - Pipeline Review, H1 2018, provides comprehensive information on the therapeutics under development for Bone Fracture (Musculoskeletal Disorders), complete with analysis by stage of development, drug target, mechanism of action (MoA), route of administration (RoA) and molecule type. The guide covers the descriptive pharmacological action of the therapeutics, its complete research and development history and latest news and press releases.

The Bone Fracture (Musculoskeletal Disorders) pipeline guide also reviews of key players involved in therapeutic development for Bone Fracture and features dormant and discontinued projects. The guide covers therapeutics under Development by Companies/Universities/Institutes, the molecules developed by Companies in Phase II, Phase I, Preclinical and Discovery stages are 7, 1, 12 and 2 respectively. Similarly, the

Universities portfolio in Preclinical and Discovery stages comprises 3 and 3 molecules, respectively.

Bone Fracture (Musculoskeletal Disorders) pipeline guide helps in identifying and tracking emerging players in the market and their portfolios, enhances decision making capabilities and helps to create effective counter strategies to gain competitive advantage. The guide is built using data and information sourced from Global Markets Direct's proprietary databases, company/university websites, clinical trial registries, conferences, SEC filings, investor presentations and featured press releases from company/university sites and industry-specific third party sources. Additionally, various dynamic tracking processes ensure that the most recent developments are captured on a real time basis.

**Note:** Certain content/sections in the pipeline guide may be removed or altered based on the availability and relevance of data.

## SCOPE

The pipeline guide provides a snapshot of the global therapeutic landscape of Bone Fracture (Musculoskeletal Disorders).

The pipeline guide reviews pipeline therapeutics for Bone Fracture (Musculoskeletal Disorders) by companies and universities/research institutes based on information derived from company and industry-specific sources.

The pipeline guide covers pipeline products based on several stages of development ranging from pre-registration till discovery and undisclosed stages.

The pipeline guide features descriptive drug profiles for the pipeline products which comprise, product description, descriptive licensing and collaboration details, R&D brief, MoA & other developmental activities.

The pipeline guide reviews key companies involved in Bone Fracture (Musculoskeletal Disorders) therapeutics and enlists all their major and minor projects.

The pipeline guide evaluates Bone Fracture (Musculoskeletal Disorders) therapeutics based on mechanism of action (MoA), drug target, route of administration (RoA) and molecule type.

The pipeline guide encapsulates all the dormant and discontinued pipeline projects.

The pipeline guide reviews latest news related to pipeline therapeutics for Bone Fracture (Musculoskeletal Disorders)

## **REASONS TO BUY**

Procure strategically important competitor information, analysis, and insights to formulate effective R&D strategies.

Recognize emerging players with potentially strong product portfolio and create effective counter-strategies to gain competitive advantage.

Find and recognize significant and varied types of therapeutics under development for Bone Fracture (Musculoskeletal Disorders).

Classify potential new clients or partners in the target demographic.

Develop tactical initiatives by understanding the focus areas of leading companies.

Plan mergers and acquisitions meritoriously by identifying key players and it's most promising pipeline therapeutics.

Formulate corrective measures for pipeline projects by understanding Bone Fracture (Musculoskeletal Disorders) pipeline depth and focus of Indication therapeutics.

Develop and design in-licensing and out-licensing strategies by identifying prospective partners with the most attractive projects to enhance and expand business potential and scope.

Adjust the therapeutic portfolio by recognizing discontinued projects and understand from the know-how what drove them from pipeline.

Featured News & Press Releases

Feb 19, 2018: Bone Therapeutics completes patient recruitment for Phase IIA Spinal Fusion study with ALLOB

Dec 12, 2017: Pluristem Granted Manufacturer Authorization and Good Manufacturing Practice (GMP) Certification by Israel's Ministry of Health, Supporting Pivotal-Stage

## Studies

Nov 28, 2017: Viking Therapeutics Announces Positive Top-Line Results from Phase 2 Study of VK5211 in Patients Recovering from Hip Fracture

Nov 22, 2017: Pluristem Granted Key U.S. Patent for Skeletal Muscle Regeneration - a Meaningful Asset Ahead of Upcoming Phase III Femoral Neck Fracture Study

Oct 02, 2017: \$7.9 Million Granted to nTRACK Collaborative Project Designed to Study Pluristem's PLX-PAD Cells

Sep 26, 2017: Pluristem Receives Positive Feedback from FDA and EMA as Company Prepares for Phase III Trial of PLX-PAD to Support Recovery from Hip Fracture

Sep 25, 2017: Viking Therapeutics to Host Key Opinion Leader Event to Discuss Musculoskeletal Therapeutics in Hip Fracture and Other Settings

Sep 20, 2017: Bone Therapeutics: announces all patients meet primary endpoint in ALLOB Phase I/IIA delayed-union study interim analysis

Sep 14, 2017: Bone Therapeutics: Reports strong interim results from ALLOB Phase IIA spinal fusion study

Sep 05, 2017: Pluristem Therapeutics: \$8.7 Million Awarded to Support Phase III Femoral Neck Fracture Trial by EU Horizon 2020 Program

Jul 12, 2017: Viking Therapeutics Completes Enrollment in Phase 2 Study of VK5211 in Patients Recovering from Hip Fracture

Mar 09, 2017: Bone Therapeutics Completes Recruitment of 16 Patients in ALLOB PHASE I/IIA Delayed-Union Study

Oct 05, 2016: Bone Therapeutics reports positive efficacy data for the ALLOB Phase IIA spinal fusion trial

Sep 01, 2016: Viking Therapeutics Presents Phase 1 Data and Highlights Ongoing Phase 2 Study of VK5211 at 5th Fragility Fracture Network Global Congress 2016

Aug 09, 2016: Cellmid: New Publication For Cellmid Midkine Antibody
