Abstracts

Bromodomain Containing Protein 3 (RING3 Like Protein or BRD3) - Drugs In Development, 2021

SUMMARY

Bromodomain Containing Protein 3 (RING3 Like Protein or BRD3) pipeline Target constitutes close to 10 molecules. Out of which approximately 9 molecules are developed by companies and remaining by the universities/institutes. The latest report Bromodomain Containing Protein 3 - Drugs In Development, 2021, outlays comprehensive information on the Bromodomain Containing Protein 3 (RING3 Like Protein or BRD3) targeted therapeutics, complete with analysis by indications, stage of development, mechanism of action (MoA), route of administration (RoA) and molecule type.

Bromodomain Containing Protein 3 (RING3 Like Protein or BRD3) - Bromodomain-containing protein 3 (BRD3) or RING3-like protein (RING3L) is a protein that encodes the BRD3 gene. It plays a role in the regulation of transcription, probably by chromatin remodeling and interaction with transcription factors. It regulates transcription by promoting the binding of the transcription factor GATA1 to its targets. The molecules developed by companies in Phase III, Phase II, Phase I and Preclinical stages are 1, 2, 3 and 3 respectively. Similarly, the universities portfolio in Preclinical stages comprises 1 molecules, respectively.

Report covers products from therapy areas Oncology, Dermatology, Immunology and Musculoskeletal Disorders which include indications Acute Myelocytic Leukemia (AML, Acute Myeloblastic Leukemia), Diffuse Large B-Cell Lymphoma, Metastatic Hormone

Refractory (Castration Resistant, Androgen-Independent) Prostate Cancer, Solid Tumor, Atopic Dermatitis (Atopic Eczema), Colorectal Cancer, Melanoma, Myelodysplastic Syndrome, Myelofibrosis, Non-Hodgkin Lymphoma, Ovarian Cancer, Post-Essential Thrombocythemia Myelofibrosis (Post-ET MF), Post-Polycythemia Vera Myelofibrosis (PPV-MF), Small-Cell Lung Cancer, Triple-Negative Breast Cancer (TNBC), B-Cell Non-Hodgkin Lymphoma, Basal Cell Carcinoma (Basal Cell Epithelioma), Colon Cancer, Epithelial Ovarian Cancer, Fibrosis, Follicular Lymphoma, Leukemia, Lung Cancer, Lymphoma, Multiple Myeloma (Kahler Disease), Myeloproliferative Disorders, Non-Small Cell Lung Cancer, NUT Midline Carcinoma (NMC or Nuclear Protein in Testis Midline Carcinoma), Pancreatic Cancer, Primary Mediastinal B-Cell Lymphoma, Psoriasis, Refractory Acute Myeloid Leukemia, Relapsed Acute Myeloid Leukemia, Rheumatoid Arthritis, Systemic Sclerosis (Scleroderma) and Unspecified B-Cell Lymphomas.

Furthermore, this report also reviews key players involved in Bromodomain Containing Protein 3 (RING3 Like Protein or BRD3) targeted therapeutics development with respective active and dormant or discontinued projects. Driven by data and information sourced from proprietary databases, company/university websites, clinical trial registries, conferences, SEC filings, investor presentations and featured press releases from company/university sites and industry-specific third party sources.

Note: Certain content / sections in the pipeline guide may be removed or altered based on the availability and relevance of data.

SCOPE

The report provides a snapshot of the global therapeutic landscape for Bromodomain Containing Protein 3 (RING3 Like Protein or BRD3)

The report reviews Bromodomain Containing Protein 3 (RING3 Like Protein or BRD3) targeted therapeutics under development by companies and universities/research institutes based on information derived from company and industry-specific sources

The report covers pipeline products based on various stages of development ranging from pre-registration till discovery and undisclosed stages

The report features descriptive drug profiles for the pipeline products which includes, product description, descriptive MoA, R&D brief, licensing and

collaboration details & other developmental activities

The report reviews key players involved in Bromodomain Containing Protein 3 (RING3 Like Protein or BRD3) targeted therapeutics and enlists all their major and minor projects

The report assesses Bromodomain Containing Protein 3 (RING3 Like Protein or BRD3) targeted therapeutics based on mechanism of action (MoA), route of administration (RoA) and molecule type

The report summarizes all the dormant and discontinued pipeline projects

The report reviews latest news and deals related to Bromodomain Containing Protein 3 (RING3 Like Protein or BRD3) targeted therapeutics

REASONS TO BUY

Gain strategically significant competitor information, analysis, and insights to formulate effective R&D strategies

Identify emerging players with potentially strong product portfolio and create effective counter-strategies to gain competitive advantage

Identify and understand the targeted therapy areas and indications for Bromodomain Containing Protein 3 (RING3 Like Protein or BRD3) Identify the use of drugs for target identification and drug repurposing

Identify potential new clients or partners in the target demographic

Develop strategic initiatives by understanding the focus areas of leading companies

Plan mergers and acquisitions effectively by identifying key players and it's most promising pipeline therapeutics

Devise corrective measures for pipeline projects by understanding Bromodomain Containing Protein 3 (RING3 Like Protein or BRD3) development landscape

Develop and design in-licensing and out-licensing strategies by identifying prospective partners with the most attractive projects to enhance and expand business potential and scope
