Abstracts

Colitis - Pipeline Review, H2 2020

SUMMARY

Global Markets Direct's latest Pharmaceutical and Healthcare disease pipeline guide Colitis - Pipeline Review, H2 2020, provides an overview of the Colitis (Gastrointestinal) pipeline landscape.

Colitis is swelling (inflammation) of the large intestine (colon). Colitis can have many different causes, including infections, including those caused by a virus, parasite, and food poisoning due to bacteria, inflammatory disorders (ulcerative colitis and Crohn's disease), lack of blood flow (ischemic colitis), past radiation to the large bowel).

Symptoms can include abdominal pain, bloating, bloody stools, chills, dehydration, diarrhea and fever. Treatment includes non-steroidal anti-inflammatory drugs (NSAIDs) and corticosteroids.

REPORT HIGHLIGHTS

Global Markets Direct's Pharmaceutical and Healthcare latest pipeline guide Colitis - Pipeline Review, H2 2020, provides comprehensive information on the therapeutics under development for Colitis (Gastrointestinal), complete with analysis by stage of development, drug target, mechanism of action (MoA), route of administration (RoA) and molecule type. The guide covers the descriptive pharmacological action of the therapeutics, its complete research and development history and latest news and press releases.

The Colitis (Gastrointestinal) pipeline guide also reviews of key players involved in therapeutic development for Colitis and features dormant and discontinued projects.

The guide covers therapeutics under Development by Companies/Universities/Institutes, the molecules developed by Companies in Phase III,

Phase I, IND/CTA Filed and Preclinical stages are 1, 1, 1 and 25 respectively. Similarly, the Universities portfolio in Preclinical stages comprises 7 molecules, respectively.

Colitis (Gastrointestinal) pipeline guide helps in identifying and tracking emerging players in the market and their portfolios, enhances decision making capabilities and helps to create effective counter strategies to gain competitive advantage. The guide is built using data and information sourced from Global Markets Direct's proprietary databases, company/university websites, clinical trial registries, conferences, SEC filings, investor presentations and featured press releases from company/university sites and industry-specific third party sources. Additionally, various dynamic tracking processes ensure that the most recent developments are captured on a real time basis.

Note: Certain content/sections in the pipeline guide may be removed or altered based on the availability and relevance of data.

SCOPE

The pipeline guide provides a snapshot of the global therapeutic landscape of Colitis (Gastrointestinal).

The pipeline guide reviews pipeline therapeutics for Colitis (Gastrointestinal) by companies and universities/research institutes based on information derived from company and industry-specific sources.

The pipeline guide covers pipeline products based on several stages of development ranging from pre-registration till discovery and undisclosed stages.

The pipeline guide features descriptive drug profiles for the pipeline products which comprise, product description, descriptive licensing and collaboration details, R&D brief, MoA & other developmental activities.

The pipeline guide reviews key companies involved in Colitis (Gastrointestinal) therapeutics and enlists all their major and minor projects.

The pipeline guide evaluates Colitis (Gastrointestinal) therapeutics based on mechanism of action (MoA), drug target, route of administration (RoA) and molecule type.

The pipeline guide encapsulates all the dormant and discontinued pipeline

projects.

The pipeline guide reviews latest news related to pipeline therapeutics for Colitis (Gastrointestinal)

REASONS TO BUY

Procure strategically important competitor information, analysis, and insights to formulate effective R&D strategies.

Recognize emerging players with potentially strong product portfolio and create effective counter-strategies to gain competitive advantage.

Find and recognize significant and varied types of therapeutics under development for Colitis (Gastrointestinal).

Classify potential new clients or partners in the target demographic.

Develop tactical initiatives by understanding the focus areas of leading companies.

Plan mergers and acquisitions meritoriously by identifying key players and it's most promising pipeline therapeutics.

Formulate corrective measures for pipeline projects by understanding Colitis (Gastrointestinal) pipeline depth and focus of Indication therapeutics.

Develop and design in-licensing and out-licensing strategies by identifying prospective partners with the most attractive projects to enhance and expand business potential and scope.

Adjust the therapeutic portfolio by recognizing discontinued projects and understand from the know-how what drove them from pipeline.

Contents

- Introduction
- Colitis - Overview
- Colitis - Therapeutics Development
- Colitis - Therapeutics Assessment
- Colitis - Companies Involved in Therapeutics Development
- Colitis - Drug Profiles
- Colitis - Dormant Projects
- Colitis - Discontinued Products
- Colitis - Product Development Milestones
- Appendix
