Abstracts

Drug Overdose - Pipeline Review, H1 2020

SUMMARY

Global Markets Direct's latest Pharmaceutical and Healthcare disease pipeline guide Drug Overdose - Pipeline Review, H1 2020, provides an overview of the Drug Overdose (Toxicology) pipeline landscape.

Drug overdoses occur when a person takes more than the medically recommended dose of a prescription or over-the-counter drug. It can be either accidental or intentional. Symptoms include sleepiness, confusion, chest pain, seizures, abdominal pain, nausea, vomiting, and diarrhea. Risk factors include age, gender, mental illness and history of overdose. Treatment includes antidote and activated charcoal.

REPORT HIGHLIGHTS

Global Markets Direct's Pharmaceutical and Healthcare latest pipeline guide Drug Overdose - Pipeline Review, H1 2020, provides comprehensive information on the therapeutics under development for Drug Overdose (Toxicology), complete with analysis by stage of development, drug target, mechanism of action (MoA), route of administration (RoA) and molecule type. The guide covers the descriptive pharmacological action of the therapeutics, its complete research and development history and latest news and press releases.

The Drug Overdose (Toxicology) pipeline guide also reviews of key players involved in therapeutic development for Drug Overdose and features dormant and discontinued projects. The guide covers therapeutics under Development by Companies/Universities/Institutes, the molecules developed by Companies in Pre-

Registration, Filing rejected/Withdrawn, Phase II, Phase I, Preclinical, Discovery and Unknown stages are 2, 2, 1, 3, 6, 1 and 6 respectively. Similarly, the Universities portfolio in Preclinical stages comprises 2 molecules, respectively.

Drug Overdose (Toxicology) pipeline guide helps in identifying and tracking emerging players in the market and their portfolios, enhances decision making capabilities and helps to create effective counter strategies to gain competitive advantage. The guide is built using data and information sourced from Global Markets Direct's proprietary databases, company/university websites, clinical trial registries, conferences, SEC filings, investor presentations and featured press releases from company/university sites and industry-specific third party sources. Additionally, various dynamic tracking processes ensure that the most recent developments are captured on a real time basis.

Note: Certain content/sections in the pipeline guide may be removed or altered based on the availability and relevance of data.

SCOPE

The pipeline guide provides a snapshot of the global therapeutic landscape of Drug Overdose (Toxicology).

The pipeline guide reviews pipeline therapeutics for Drug Overdose (Toxicology) by companies and universities/research institutes based on information derived from company and industry-specific sources.

The pipeline guide covers pipeline products based on several stages of development ranging from pre-registration till discovery and undisclosed stages.

The pipeline guide features descriptive drug profiles for the pipeline products which comprise, product description, descriptive licensing and collaboration details, R&D brief, MoA & other developmental activities.

The pipeline guide reviews key companies involved in Drug Overdose (Toxicology) therapeutics and enlists all their major and minor projects.

The pipeline guide evaluates Drug Overdose (Toxicology) therapeutics based on mechanism of action (MoA), drug target, route of administration (RoA) and molecule type.

The pipeline guide encapsulates all the dormant and discontinued pipeline projects.

The pipeline guide reviews latest news related to pipeline therapeutics for Drug Overdose (Toxicology)

REASONS TO BUY

Procure strategically important competitor information, analysis, and insights to formulate effective R&D strategies.

Recognize emerging players with potentially strong product portfolio and create effective counter-strategies to gain competitive advantage.

Find and recognize significant and varied types of therapeutics under development for Drug Overdose (Toxicology).

Classify potential new clients or partners in the target demographic.

Develop tactical initiatives by understanding the focus areas of leading companies.

Plan mergers and acquisitions meritoriously by identifying key players and it's most promising pipeline therapeutics.

Formulate corrective measures for pipeline projects by understanding Drug Overdose (Toxicology) pipeline depth and focus of Indication therapeutics.

Develop and design in-licensing and out-licensing strategies by identifying prospective partners with the most attractive projects to enhance and expand business potential and scope.

Adjust the therapeutic portfolio by recognizing discontinued projects and understand from the know-how what drove them from pipeline.

Featured News & Press Releases

Dec 12, 2019: Opiant Pharmaceuticals announces contract extension of second tranche of approximately \$2.4 million from Biomedical Advanced Research and Development Authority for development of OPNT003, Nasal Nalmefene, for the treatment of Opioid Overdose

Aug 07, 2019: Northwest Territories makes NARCAN (naloxone) nasal spray available to all residents for free of charge in response to the opioid crisis

Jul 03, 2019: FDA accepts new drug application for insys therapeutics naloxone nasal spray for the emergency treatment of known or suspected opioid overdose

Apr 08, 2019: Opiant Pharmaceuticals announces publication of clinical pharmacokinetic data supporting potential of OPNT003, nasal nalmefene, for treatment of synthetic opioid overdose

Apr 01, 2019: Study finds vast differences in ease-of-use for Naloxone delivery methods

Apr 01, 2019: Opiant Pharmaceuticals announces award of second tranche of approximately \$3.0 million from National Institutes of Health Grant for development of OPNT003, nasal nalmefene, for treatment of opioid overdose

Mar 25, 2019: INSYS Therapeutics to present poster of pharmacokinetic study of Naloxone novel nasal spray at The College on Problems of Drug Dependence Annual Scientific Meeting

Jan 31, 2019: Aladote's data has been selected for presentation at The International Liver Congress

Jan 07, 2019: Positive results from human PK study assessing Orexo's new intranasal Naloxone formulations for opioid overdose reversal

Dec 24, 2018: Opiant Pharmaceuticals announces FDA Orange Book Listing for the new NARCAN Nasal Spray patent

Dec 18, 2018: INSYS Therapeutics announces participation at FDA Advisory Committee Meeting Addressing the Co-Prescribing of Naloxone

Dec 17, 2018: INSYS Therapeutics provides updates on strategic alternative review process and its pipeline product Naloxone

Nov 01, 2018: INSYS Therapeutics announces results of PK study assessing proprietary intranasal Naloxone formulations versus intramuscular and intravenous Naloxone for Opioid Overdose

Oct 24, 2018: Emergent BioSolutions to offer all public libraries and YMCAs in the U.S. free opioid awareness education and NARCAN (naloxone HCl) Nasal Spray

Oct 22, 2018: Opiant Pharmaceuticals to Participate in Opioid Panel at the BARDA Industry Day
